

ATKINSON IN RACE FOR GOVERNOR ON TAX REFORM ISSUE

St. Louis Lawyer and Former Chairman of Utilities Commission Favors State Budget System.

THIRD DEMOCRAT TO MAKE ANNOUNCEMENT

Regards Prohibition Question as Settled and Would Co-operate With Government in Its Enforcement.

John M. Atkinson, former chairman of the Missouri Public Service Commission, today announced his candidacy for the Democratic nomination for Governor in the August primary, making public a platform of principles on State affairs as well as a statement of support of the National Democratic administration.

On the question of prohibition, he said that while there had been differences of opinion as to the wisdom of prohibition, it had been accepted as a National policy in the adoption of the Federal amendment, and that if elected Governor he would recommend such laws as would be necessary to co-operate with the National Government in strict enforcement of prohibition.

Tax reform, a budget system for handling State expenditures, laws which will permit large cities to build and own subways and elevated lines, a commission of industrial relations, and a one-commissioner police system are among the chief planks of the platform Atkinson announced.

Third Democrat to Announce. He is the third Democrat to announce for the nomination, the others being Representative Frank H. Harris of Reels and Lieut. Gov. Wallace Crossley of Warrensburg. He is 49 years old. He was a member of the Legislature from Ripley county three sessions, being a speaker of the House in 1907, his last session. Afterward he was Assistant Attorney-General, and when the Public Service Commission Act, which he drew, was enacted, he was appointed chairman of the commission by Gov. Major. Retiring from the commission four years ago he came to St. Louis and has been practicing law. He resides in University City.

He was candidate for the nomination for Governor in 1918, running second in a field of seven candidates.

The platform Atkinson announced is: "I am one who believes that the great achievements of the National and State administrations, should meet with the approval of our voters. While the league of nations has not been made a party issue, yet I have been in full accord and sympathy with President Wilson, and believe that it should be speedily ratified with only such reasonable reservations as will not destroy its purposes. I cannot help but believe that the league of nations will make for the peace of the world and tend to end the present industrial and financial unrest and help to relieve suffering humanity.

While thus expressing my views on national questions, yet I believe Missouri voters will be interested in the questions affecting the welfare and upbuilding of our State, and on such State issues a candidate for Governor should be nominated and elected. I can only briefly outline what I conceive to be some of these vital questions.

"We must have a State executive budget for making all appropriations of State moneys, thereby adopting economy in all State expenditures. This is one of our greatest needs. Unavoidable conditions brought on by the war have greatly increased the burden of taxation. By adopting a State executive budget, the taxpayers of the State will be saved from \$1,000,000 to \$2,000,000 each year over our present system of appropriating money. "A commission of industrial relations with broad powers to mediate and arbitrate disputes between labor and capital should be provided. It will be to the interest of both employers and employees, as well as the public, to have all labor disputes settled by arbitration whenever possible.

"Our State needs a new Constitution. I heartily favor the adoption of one to meet the new problems of reconstruction and further develop the resources of our State.

State Aid for Soldiers. "Having a son who volunteered his services and went through the war, I naturally feel that legislation for the rehabilitation of our soldiers, sailors and marines who were willing to die gloriously on the field of battle for the sake of humanity, must be promptly enacted by our legislature.

PRESIDENT ON FIRST AUTO RIDE SINCE LAST OCTOBER

Exchanges Smiles With Senator Borah on Passing—Much Benefited by Outing, Dr. Grayson Says.

By the Associated Press.

WASHINGTON, March 3.—President Wilson went for a motor ride today, leaving the White House grounds for the first time since he was ordered to bed last October by Rear-Admiral Grayson, his physician, as "a very sick man."

The President was accompanied by Mrs. Wilson and kept his cap on the "speedway" along the Potomac. A closed car was used and the party left through the south-west gate. Photographers who had waited several weeks for the President's reappearance in public were prohibited by the police from taking photographs.

Almost ideal weather prevailed for the President's ride, the day being as balmy as one in late spring, with only a gentle wind stirring. The car was kept closed throughout the trip.

The President sat in the rear seat with Mrs. Wilson and kept his cap on his hand most of the time.

From the "Speedway" the President drove back into the city and down Pennsylvania avenue around the capitol and thence to the White House. He was out a little more than an hour, and appeared to have enjoyed his outing.

In Capitol grounds the President passed Senator Borah of Idaho, and recognition was simultaneous, both waving their hands and smiling. Throughout the trip, Dr. Grayson said, the President was delighted and remarked that he felt like he had been away from Washington for a long time.

Recognized by Many. Passing the vicinity of a market house the President saw a sign of pig at 35 cents a pound. Although he has given much serious consideration to the high cost of

living, the President remarked to Mrs. Wilson "that brings it home to you when you see a big sign like that."

During the drive the President passed many people who recognized him and he smiled his acknowledgment of their greeting. Quite often women waved to him.

Decision to allow the President to go out today was made by Admiral Grayson early this morning. Yesterday the President, anticipating a good day, suggested that he would go out riding and Dr. Grayson acquiesced.

The President's car and secret service machine drew up to the south entrance of the White House at about 11 o'clock. A few moments later the President, accompanied by Mrs. Wilson and Dr. Grayson, came out from under the colonnade. The President walked to the car with the aid of his cane. Dr. Grayson was at his side and held lightly to the President's arm. The President was assisted into the car by Dr. Grayson and Mrs. Wilson. He wore his old gray sweater under a medium-weight overcoat.

Daily Drives Unlikely. After passing the capitol the President returned to the White House via the Union Station and Massachusetts avenue, entering the White House grounds through the south gate opposite the Treasury.

Dr. Grayson said that the President had been much benefited by his trip and that an examination of his blood pressure on his return showed it to be quite normal. The President, Dr. Grayson said, probably will not go out driving every day for a time. Today's trip was in the nature of a diversion and future outings will be regulated by the weather. There will be no set schedule.

U. S. DRY AGENT IN MICHIGAN ARRESTED ON LIQUOR CHARGE

Man Who Went to "Whisky Rebellion" Declares He Has Been "Framed."

By the Associated Press. GRAND RAPIDS, Mich., March 3. George P. E. Curran, chief of the Grand Rapids office of the Department of Justice, who yesterday returned from Iron County, Mich., where he went as a special representative of Myron H. Walker, United States District Attorney, in connection with the "whisky rebellion," was arrested at a hotel last night by Edward A. Nowack, a special agent of the State Food and Drug Department, on a charge of violating the liquor laws.

Curran was taken to police headquarters and released without bail.

According to Nowack, the Department of Justice agent invited him into his room and gave him a drink of whisky. Curran declared he had been "framed."

CONTINUATION OF PRESENT CAR FARES ASKED FOR BY WELLS

U. R. Receiver Says Revenues Under Increased Fare Still Insufficient.

SPECIAL TO THE POST-DISPATCH. JEFFERSON CITY, March 3.—Receiver Wells of the United R. R. Co. of St. Louis applied today to the Public Service Commission for a continuation of the present 7, 7 1/2 and 8-cent scale of fare on the city and St. Louis County lines. After March 20, when the period first fixed for these fare terminations, and until the Commission has completed its valuation of the company's property.

Wells states, in his application, that present fares are insufficient to pay operating expenses and a fair return on the property. He says every possible economy in operation has been effected, and that no reduction of the present cost of materials and labor is in sight. Therefore, he argues, continuation of the present fare is necessary, to give the public adequate service and to pay operating expenses.

The order fixing the present fares was issued by the commission Sept. 2 last, and went into effect Sept. 20, for six months, with a provision that the rates might be continued or reduced at the end of six months. If no action should be taken, the original rate, 5 cents for adults and 2 1/2 cents for children, would return automatically.

Engineers of the commission are making the property valuation, and the time of its probable completion is not known.

Hearing on the application will be held here next Wednesday at 10 a. m.

Millionaires to Invade England.

LONDON, March 3.—Arrangements are being made in haste to receive the great American invasion of England promised for this spring and summer. The officers of the United States Consulate General have been deluged with applications for hotel accommodations, says the Daily Mail, and among the first to apply for suites were 22 American millionaires.

'PATIENCE WORTH' CHUCKS OUIJA BOARD OVERBOARD

Mrs. John H. Curran Says Poetry Is Smoother and More Musical Without Use of Device Long Employed.

HOPES TO BE TAKEN MORE SERIOUSLY NOW

Sincerely Regrets It if There Has Come Harm to Any-one in Great Flood of Ouija Board Sales.

Mrs. John H. Curran, of 5714 Vernon avenue, who says that for the past six years she has been receiving the dictation of Patience Worth's books, poems and religious teachings through the instrumentality of the ouija board, announced today that she has entirely discarded the board, no longer using it in her work.

In making this announcement, Mrs. Curran said:

"I have believed for many months that I should one day be able to speak the words of Patience Worth without the aid of the board. That desirable end has come about gradually. At first I spelled out the words carefully and laboriously, spelling the pointer to each letter. After awhile I grew more confident and rapid and found myself skipping over letters as I spoke them until at last I almost totally ignored the letters and merely circled the pointer about in the middle of the board. Then later I began to say short words without spelling them, then longer words and two or three words together came without spelling, until last November, when in New York, I found that I could recite whole poems without spelling, merely keeping my hand in movement on the pointer.

Discarded the Pointer. "At last on the 15th of last month, I tried placing the pointer on a table or chair, and found I could get the words of Patience just as rapidly as it could be written by the amanuensis although I was sitting at a desk and the pointer was in evidence on account of the change in method so long used. I soon discarded the pointer and by holding some article in my hand was able to proceed with facility. I now sit and look away from the company or from anything which would bring my own thoughts up to the exclusion of the words of Patience.

"It seems to me that now the poetry is smoother and more musical than in the old way. The spelling had grown to be irksome and a drag. There is no other change in the matter that I can detect. The stories also are coming with equal facility.

"It is a great joy to me to have freed myself of the board which I have always felt was entirely without intrinsic virtue and was a bar to the proper acceptance of the work. The fact that it has been connected with the semi-comic parlor amusement, fortune telling games which have a serious aspect when embraced by shallow minds, and the further fact that the lack of the machinery of mediumship, fake and otherwise, from all of which I have faithfully tried to divest myself for the sake of the wonderful words of Patience Worth, has given me a positive aversion to it.

Feels World Will Be More Serious. "Now that I no longer, in common parlance, 'work the weelie,' I feel sure the world will take more seriously the wonderful phenomenon which for nearly seven years has stood the strictest tests and remains clean and sane and wholesome, containing that greatest of all proof of genuineness, the verities within its every aspect.

"If in the great flood of ouija board sales growing out of this and the consequent inflaming of certain minds there has come harm to anyone, I sincerely regret it, and am more than ever glad to remove for good and all anything which might bring criticism or harshness toward the coming back to earth of Patience Worth."

FIRST ROBINS OF SEASON REPORTED AT SHREWSBURY

The weather man and the robin redbreasts are not pulling together as well as usual this spring. When the robins come it is a sign that winter has gone, but the robins came today at Shrewsbury, in St. Louis County, and the weather man announced snow and much colder weather tomorrow. Watching for the first robins is the community pastime at Shrewsbury. Mrs. A. T. Hix of 7602 Big Bend road saw the first ones yesterday, two of them. She reported her observation to the Post-Dispatch today. Out at Shrewsbury they have great faith in the weather perspicacity of the robins and they are not worrying much over the official forecast of snow and much colder.

Moving Picture Star Who Gets Nevada Divorce From Her Actor Husband

MARY PICKFORD OBTAINS DIVORCE FROM OWEN MOORE

Motion Picture Star Appears in Court in Very Old Clothes—Weeps While Testifying.

By the Associated Press. RENO, Nev., March 3.—Mary Pickford, motion picture star, obtained a divorce from Owen Moore last night at Minden, a small town near Carson City, on grounds of desertion. She has been at the Campbell ranch at Genoa, nearby, since Feb. 15.

She was accompanied to the courtroom by her mother, Mrs. Smith, and she wept while testifying. Moore was represented by an attorney. Mary Pickford was dressed in very old clothes. Mary Pickford, who is 26 years old, was born in Toronto, Canada. Her father died when she was 5 years old, and she went on the stage to supplement the family income. At 8 she became a star in children's parts.

In recent years she has been known entirely as a moving picture star. Her income in 1918 being held by the Supreme Court of New York to exceed \$1,000,000 annually. Her name became linked publicly with that of Douglas Fairbanks, motion picture actor, April 11, 1918, when Mrs. Fairbanks announced in New York that she and her husband had separated. Three days previously Miss Pickford, Fairbanks' interview, Owen Moore, Mary Pickford's husband, and himself a motion picture actor, gave out a statement in Los Angeles that he would sue Fairbanks for \$250,000 for alleged alienation of his wife's affections. Nothing further was heard of the matter, however.

When they got back to King's highway and Columbia avenue they learned that Miss Southworth had been taken to a hospital. One of the girls in the Carleton car recognized Miss Louise Rogers, 5666 Cates avenue, who had been with Miss Southworth, and spoke to her. Carleton said that Miss Rogers asked if it was their car which had hit Miss Southworth, and that they all replied that it was not, adding that they had just happened along and, seeing a crowd, had stopped to find out what had happened.

It was upon information furnished by Clymer, Diggs and two other young men that led the police to Carleton's home. Carleton admitted to the police that one of the headlights on his car had been broken, and said that he replaced the glass himself Monday without mentioning it to his father.

"I became rattled when I saw Miss Southworth start to run across the street," said Carleton. "Had I swerved the car I would have hit her companion, so I drove straight ahead. When the lights on my car went out I turned around and went back. Miss Rogers was there and I saw her."

YOUTH ADMITS HE DROVE AUTO THAT HIT GIRL STUDENT

William Carleton, 18, Walks Into Police Station With Alderman Luke Hart and Tells of Mishap.

ACCIDENT SUNDAY ON KING'S HIGHWAY

Driver Tells of Starting Back to Scene and How He and Others in Car Agreed to Say Nothing.

William Carleton, 18 years old, 6124 Kingsbury boulevard, son of John Carleton, president-treasurer of the Carleton Clothing Co., 1123 Washington avenue, called at the Page Boulevard Police Station today in company with Alderman Luke Hart and admitted that he drove the automobile which knocked down and seriously injured Miss Alene Southworth, 17, of 3443 Julian avenue, at King's highway and Columbia avenue, at 12:30 o'clock last Sunday morning. He formerly was a student at Soldan.

Miss Southworth is at Barnes Hospital suffering from fractures of the skull, thighs and ribs. It was said there today that although she was resting easy she was not yet out of danger. After being hit by the machine she was dragged about 30 feet on the bumper and then dropped to one side.

Detectives Visited Home.

Detectives, investigating the case, obtained information which caused them to go to the Carleton home last night and inspect the automobile which was driven by William Carleton last Sunday morning. They carried with them pieces of broken glass from an automobile headlight which had been picked up at the scene of the accident, and they found that the glass in one of the headlights of the Carleton machine had been recently replaced. William Carleton was not at home and the detectives questioned his father.

The elder Carleton said that he did not believe his son had been in the accident, but would question him when he returned home and would have him report at the Page Boulevard Station the following morning. At 11 a. m. William Carleton surrendered. Alderman Hart said that he had been retained as counsel and advised the youth to make a voluntary statement to the police.

Story of Accident. Carleton then told the police that he was driving home early Sunday morning from Bevo Mill in a seven-passenger Chandler car and was accompanied by Misses Eleanor Atkins, 17 years old, of 4929 Washington boulevard; Olive Cabanne, 16, of 6309 Enright avenue, and Joseph Barry, 17, of 4039 Labadie avenue. He was driving north on King's highway at about 20 miles an hour, he said.

At Columbia avenue, he said, he observed two couples crossing King's highway from the west to the east side, and he slowed down. One couple crossed ahead of the automobile and the other hesitated and suddenly the girl broke away from her companion and started to run across. She ran directly into the path of the car, he said.

Decided to Say Nothing. After the accident, he said, he continued two blocks north on King's highway to the intersection of Vandeventer avenue, and then northeast along Vandeventer for about a block, when he decided to return and find out if the girl had been seriously hurt. On the way back, he said, he and his companions agreed not to say that they had figured in the accident.

When they got back to King's highway and Columbia avenue they learned that Miss Southworth had been taken to a hospital. One of the girls in the Carleton car recognized Miss Louise Rogers, 5666 Cates avenue, who had been with Miss Southworth, and spoke to her. Carleton said that Miss Rogers asked if it was their car which had hit Miss Southworth, and that they all replied that it was not, adding that they had just happened along and, seeing a crowd, had stopped to find out what had happened.

It was upon information furnished by Clymer, Diggs and two other young men that led the police to Carleton's home.

Carleton admitted to the police that one of the headlights on his car had been broken, and said that he replaced the glass himself Monday without mentioning it to his father.

LLOYD GEORGE HOLDS GERMAN MUST HAVE RIGHT TO FLOAT LOAN

British Premier's Stand on Rehabilitation of Europe Brings Critical Phase in Peace Council.

PLAN APPROVED BY AMERICAN BANKERS

France Is Said to Be Strongly Opposed to Move and Italian Premier Is Reported Supporting It.

By JOSEPH W. GRIGG, A Staff Correspondent of the Post-Dispatch and New York World. Copyright, 1920, by the Press Publishing Co. (The New York World). LONDON, March 3.—Once more the deliberations of the Supreme Council have reached a critical phase. Premier Lloyd George, voicing the demand of the British people, has taken the stand that the rehabilitation of Europe is impossible unless Germany is given the opportunity to get to her feet. To do this, he contends that it is absolutely necessary that Germany be permitted without delay to float a big loan in European neutral countries, South America and the United States, the security of this loan to have precedence over and be protected against reparation claims.

This plan has had the approval of high American financial interests. This, so the Post-Dispatch correspondent was informed on the highest authority last night, is the far-reaching issue now facing the Supreme Council, which since Saturday has been devoting its chief attention to Europe's economic crisis.

Revision of Treaty Discussed. It has been indicated that the momentous question of revision of certain clauses of the Versailles treaty had been reached in these discussions. As was to be expected, France is strongly opposing the British position, which, however, is understood to have the support of Premier Nitti.

Premier Millerand is scheduled to return Thursday. Until he does, it is hardly possible that definite action on the proposed German loan will be taken. Premier Nitti will remain here until next week, which gives additional color to the belief that besides the economic problems which are now being discussed, he will continue informal negotiations on the Adriatic issue.

Premier Lloyd George's supporters are sanguine of success in the question of the German loan. They point out that a Germany which is able to work is far more able to pay reparations to France than a Germany prostrate.

The Turkish treaty is rapidly nearing completion, with a settlement in principle at least, of the naval section and some boundary clauses. After the meeting the Post-Dispatch correspondent learned that Turkey had been allowed to have any navy except a few revenue cutters. Territorially, it was indicated, she would be left with little ground outside Constantinople and Anatolia.

Turkish Army Considered. The question of the Turkish army will be considered today with allied military experts attending the conference. The council's commission on Turkish finances began work with a consideration of the apportionment of the Turkish debt among the countries being carved from the old empire. The commission will also report on allied reparation claims against Turkey and Turkish repayment of the cost of armies of occupation.

The allied Premier's economic draft of the council considered a draft of the committee's lengthy report on high prices, but final adoption has been delayed until several clauses have been redrafted. It is expected that the report will be ready for publication Friday.

If the present speedy progress continues, the allied Premier's hope to conclude settlement of the main principles of the Turkish settlement and the economic conference by the end of this week, allowing their section of the conference to adjourn and leaving settlement of minor details to Lord Curzon's committee.

GASOLINE GOES UP 1 CENT

The retail price of gasoline was advanced today to 26 cents a gallon by the Standard Oil Co. and the Pierce Oil Corporation. The price since Feb. 15 having been 25 cents. Increased cost of crude oil was given as the reason. Last October gasoline was advanced from 22 1/2 cents to 25 cents a gallon, at which figure it remained until Feb. 12. The price today is 50 cents a gallon higher than in January, 1919.

Illinois: Rain or snow in north and central portions and rain in south portion tonight and tomorrow; warmer in southeast portion tonight; colder tomorrow; strong shifting winds.

Missouri: Rain, turning to snow tomorrow; strong winds, becoming northwesterly.

Nebraska: Rain or snow in north and central portions and rain in south portion tonight and tomorrow; warmer in southeast portion tonight; colder tomorrow; strong shifting winds.

JUGO-SLAV REPLY TO ALLIES UPHOLDS WILSON'S STAND

Note Agrees With President in Opposing Overturning of Adriatic Solution Previously Agreed Upon.

ATTACKS PLAN TO ALTER "WILSON LINE"

Answer to Ultimatum Declares "Unjustifiable Annexations" Would Be New Violation of Nationalities.

By the Associated Press. WASHINGTON, March 3.—Strict adherence to the American, French and British agreement of Dec. 9 on the Adriatic question characterized the reply of Jan. 20 of the Jugo-Slav Government to the French and British ultimatum on Jan. 14. The Jugo-Slav note, which was made public yesterday by the State Department, raises many of the same objections as set forth in President Wilson's note of Jan. 19 protesting against the overturning of the previously agreed upon solution of the vexatious problem.

The single insistent difference which distinguishes the point of view of the Jugo-Slav reply from that of the agreement signed by Secretary Polk on behalf of the United States Dec. 9 is over the cession to Italy of the island of Dalmatia, which, according to the Jugo-Slav note, "is purely Slav and from an economic view indisputably united with Dalmatia."

Hotbed of Irredentism. Concerning the readjustment of the "Wilson line" as proposed in the French ultimatum, the Jugo-Slav note declares such an "unjustifiable annexation of purely Jugo-Slav territories would bring about a new and flagrant violation of the principles of nationalities. It would inevitably create a permanent hotbed of irredentism with the frontiers of Italy of a nature precisely analogous to that which was held as a justification of the claims of 'Italia Irredenta' in which its return to the mother country was demanded."

The aggrandizement of Italian territory to the east of the Wilson line in Senozotha regions, the note asserts, cannot be justified on the grounds of better protection for Trieste. By bringing a line to within six kilometers of the Saint Pierre railroad junction, it is added, the Vienna artery of the Jugo-Slav railroad line would be directly menaced.

"The extraordinary complexities" which the ascription of the territory between the coast and the Plume railroad line would create, according to President Wilson's memorandum, were likewise objected to on account of "unremovable obstacles" in the Jugo-Slav note.

While accepting the independence of Fiume and Zara, the Jugo-Slav Government records its vigorous objection to the separation of the diplomatic representatives of the cities from the control of the league of nations. As in the Wilson memorandum, it is argued that such a course paves the way for rebellion and annexation.

Seen Ruin in Separation. Along with its constrained acceptance of the independence of Zara, the Jugo-Slav note points out the imminent consequence of commercial ruin which must ensue with the separation of Zara from its administrative association with Dalmatia, and for this reason the right to transfer the credit funder bank of Dalmatia from Zara is requested as well as all matters pertaining to the provincial administration now lodged in the city.

The solution of the Albanian problem, the Jugo-Slav Government suggests, would be best followed by a continuance of the status established by the conference of Ambassadors in London in 1912 which was "a local autonomous Government without outside interference. In the event of any other solution, the note declares, the northern frontier adjoining Jugo-Slavavia would have to be modified.

The question of the division of the Austro-Hungarian war and commercial fleets, the note declares to be a part of the Adriatic problem and a settlement on this point is demanded.

HEARSE ON WAY TO CEMETERY FOUND TO HAVE NO LICENSE

A hearse containing a body, on the way to a cemetery, was one of the motor conveyances found by St. Louis County constables to be without a 1920 State license, causing the owner's arrest. There have been 54 such arrests in the county this week. A. L. Beal, negro undertaker, of 2226 Lucas avenue, was owner of the hearse, which was being driven to a funeral at Greenwood cemetery, Westland. The car which preceded the hearse, and the one behind it, were also without 1920 tags, and Beal, as the owner of these cars and the hearse, was being driven to a jail. One of the cases was sent to a justice of the Peace in University City, and was dismissed on payment of costs. The others were sent to Clayton Justice and Beal's appearance on these charges was overruled today.

Atkinson Out for Governor on Tax Reform Platform

Continued From Page One.

State. Liberal bonuses for their aid should be provided.

"A State grows great when its cities are developed along with its agricultural and manufacturing resources. We have not a single mile of rapid transit facilities—such as subways and elevated lines—in our large cities.

"The standards of our public schools must be made equal to those of any other state. Many of our teachers are underpaid. While our public schools stand in need of the ablest men and women, we have not only been losing thousands of our best teachers, but other young men and women are no longer preparing to become teachers because they cannot exist on the disgracefully low salaries paid.

"Our State tax system is antiquated and out of date. Great inequalities exist in taxation throughout the State. Untold intangible wealth in the State escapes taxation. Such unjust discriminations should not exist. Laws should provide for local rates of taxation for counties, cities and school districts to meet the local needs. Laws should be passed making all persons give in their property for taxation. I am opposed to the single tax on lands as being unfair and unjust to the great agricultural interests of our State. I am opposed to taxing gifts to charitable, religious and educational institutions. I am also opposed to double taxation as being unjust.

"For Good Roads System. "Missouri must go forward in building a great State system of good roads. Good, wide and sound constructive laws should be enacted to encourage the full development of Missouri's great resources.

"Our educational and eleemosynary institutions must be liberally provided for: the pensions due Confederate soldiers must be paid; our constitutional provision for the blind should be carried out.

"Agriculture is our greatest single industry and laws should be passed to further encourage same. A State agricultural commissioner should be provided.

"A minimum wage for working women and an eight-hour day should be provided; all labor is entitled to a decent standard of living. It has been a cardinal policy of the Democratic party to always stand for human rights as against property rights.

"Women are entitled to the full right of suffrage and political representation, and representation in offices.

"Laws for the better protection of labor and better working conditions should be provided. Labor and employer should be provided.

"Court Reform Needed. "Missouri is in crying need of court reform in both civil and criminal cases. Juvenile courts and courts of domestic relations with broad powers should be provided.

"We must return to pre-war living conditions as rapidly as possible. We should vigorously prosecute violations of our anti-trust laws where manufacturers or sellers are combining to raise the price or

MINIATURE FURNITURE LEFT TO MUSEUMS BY MRS. TOM THUMB

Two Sewing Machines and Piano Mentioned in Will; Some Articles Were Gifts From Royalty.

PLYMOUTH, Mass., March 3.—The home furnishings of Mrs. Lavina W. Magr (Mrs. Tom Thumb), who died recently, will be placed in museums by the terms of her will, which has been filed here. Her collection is said to include the smallest practical furniture in use. Two miniature sewing machines and a piano are among the pieces mentioned in the will. Several of the articles were gifts from European royalty before whom she performed.

The remainder of her property is to be divided among her husband, Count Magr, also a midjet, and two nephews.

GAME WARDEN BRINGS SON TO CUSTODY ON MURDER CHARGE

REDWOOD CITY, Cal., March 3.—William Burke, arraigned on a charge of murder, was brought to custody by his own father, John Burke, game warden, of San Mateo County.

Learning a week ago that the person known as "Red" Christenson, who had been sought for nearly a year in connection with the slaying of Albert Reidinger, was his son, whom he had not seen for 14 years, he traced the boy to San Francisco and induced him to give himself up, the Sheriff's office stated.

EARTHQUAKES BREAK CABLES

Two Shocks Sever Both South American Lines in Pacific.

WASHINGTON, March 3.—Two earthquakes occurred in the South Pacific Ocean last Saturday, resulting in the breaking of both South American cables, according to information received here today. No further details were received. Seismographic records at Georgetown University showed that the first of considerable intensity occurred at 1:50 p. m. Saturday and the second at 6:45 p. m. The first continued until 2:25 p. m. The centers of the disturbances were estimated at about 3400 miles from Washington.

JOHN M. ATKINSON.

to hold up the price on necessities of life. Profiteering should be prevented every way possible, and the high cost of living reduced.

"By the adoption of the eighteenth amendment, prohibition has become a part of our Federal Constitution and has been made a national policy. Good citizens have differed as to the wisdom of such a law, but the policy has been accepted. It is now a question of enforcing this constitutional amendment by national and state laws. If elected Governor I shall recommend such measures as are necessary to co-operate with the national Government in strict enforcement of prohibition.

"Election laws should be amended to guarantee absolutely honest and fair elections and primaries, giving women equal rights with men as soon as the Federal amendment is ratified.

"For Police Efficiency. "The police forces of our cities should be placed on an efficient basis. The one-commissioner system should be adopted and place responsibility at the head of the police department. Police should do police duty, protect life and property, preserve order and see that the laws are enforced. They should be paid living salaries and pensions should be provided for the aged and disabled.

"I believe that all applications for pardons should be carefully investigated and recommendations of their merits filed with the Governor and made public at least ten days before being acted upon. I also believe the aim of our criminal laws should be to reform and educate, rather than to punish.

"If nominated and elected Governor, I am in favor of the short ballot. The entire business of the State should be put under a limited number of State departments and require the strictest business efficiency in the management of each.

"If nominated and elected Governor, I am in favor of the short ballot. The entire business of the State should be put under a limited number of State departments and require the strictest business efficiency in the management of each.

"It is necessary to pay particular attention to the American Federation of Labor, which must be broken up, by working actively in conjunction with the F. W. W., to organize a revolutionary trades union movement.

"The domestic questions reservation over to its support five Democrats who had not voted for it in November—Senator Ashhurst, Arizona; Pittman and Henderson, Nevada; Myers, Montana, and Nugent, Idaho.

This proposition also Senator Hitchcock's caustic reply was rejected by a solid Republican lineup, joined again by Senators Reed and Shields.

30,000 OF EXPECTED 115,000 INCOME TAX RETURNS FILED

Collector of Internal Revenue Moore Departs for Washington With Figures.

Collector of Internal Revenue Moore departed for Washington yesterday, taking with him figures compiled in his office here which showed that up to noon yesterday about 30,000 income tax returns had been filed in St. Louis. Of these, about 22,000 were returns on taxable incomes.

As it is expected that 115,000 returns will be made here, there are indications that the rush to make returns began now and the time limit, March 15, will be even greater than last year.

This year at least one-fourth of the tax must be paid when the return is made. Last year it was permitted to make the return and the payments separately. The time limit last year also was March 15, but this was extended to April 15.

BOY EJECTED FROM THEATER LOSES \$5000 DAMAGE SUIT

A verdict was returned in Circuit Judge Landwehr's court today in favor of the Vaudeville Theater Co., which was sued for \$5000 damages by Sterling Harkins, 17 years old, of 5412 Cabanne avenue, who alleged that David Russell, manager of the King's Theater, 820 North King's highway, forcibly ejected him from the theater on July 15, 1918, without cause, severely bruising and humiliating him. The Vaudeville Theater Co. controlled the King's Theater at that time.

The defense was that Harkins, with two other boys, had poured water from paper cups from a washroom on the second floor of the theater onto the heads of patrons entering the theater and that no force was used in the ejection. Harkins was then 13 years old.

The suit was brought in the name of the boy's father, John R. Harkins, an insurance agent. Harry Koplar and Sam Hamburg were named defendants, but the cases against them were dismissed when it was shown that they had no connection with the theater at that time.

Eggs Decline One to Six Cents. CHICAGO, March 3.—Eggs dropped from one to six cents on the Chicago produce market this morning. The greatest decline was registered by miscellaneous eggs, comprising receipts from the farm, which fell to 41 to 45 1/2 cents, as compared to yesterday's price of 47 to 49 cents. All grades were affected by the decline.

MARTENS ASKED ABOUT DOCUMENTS CAPTURED AT RIGA

One Letter From Soviet Leader Told of Plan to Organize U. S. Soldiers to "Bait Officers."

URGED FEWER WOMEN IN AMERICAN SOVIETS

Martens Insists That Letter, Directed to Communist Congress, Was Not Addressed to Him.

By the Associated Press. WASHINGTON, March 3.—Ludwig C. A. K. Martens, Russian Soviet agent in the United States, was questioned before the Senate investigating committee today regarding documents outlining Bolshevik activities to be carried out in this country, which were started from Russia by courier and which fell into the hands of the State Department.

Wade H. Ellis, committee counsel, said Anton Koltorov, the courier, was captured at Riga last Dec. 18, and that he carried 3,000,000 rubles in diamonds in addition to letters. Martens denied acquaintance with Koltorov.

One of the documents was a letter from Bucharin, a Soviet leader. "One of the important tasks is that of organizing groups of soldiers among American armed forces for the purpose of overthrowing the government," said the letter. "I fear the mistake made in America is that of getting Soviets formed largely among women, on purely cultural grounds."

"I am in favor of the short ballot. The entire business of the State should be put under a limited number of State departments and require the strictest business efficiency in the management of each."

"The directing of strikes, the movement of the unemployed, of uprisings in the Soviet's duty," the letter said. "They must be a fighting organization to struggle for political power, of dictatorship of the workers. The splitting up of the proletariat into national groups must be avoided."

"It is necessary to pay particular attention to the American Federation of Labor, which must be broken up, by working actively in conjunction with the F. W. W., to organize a revolutionary trades union movement."

The domestic questions reservation over to its support five Democrats who had not voted for it in November—Senator Ashhurst, Arizona; Pittman and Henderson, Nevada; Myers, Montana, and Nugent, Idaho.

This proposition also Senator Hitchcock's caustic reply was rejected by a solid Republican lineup, joined again by Senators Reed and Shields.

MAN KICKED BY RUNAWAY MULE DIES OF HIS INJURIES

Henry P. Schoeder, 59 years old, of 1417 Sullivan avenue, died at the Missouri Baptist Sanitarium yesterday from internal injuries suffered Feb. 24, when he was kicked by one of a team of mules he attempted to stop, when they ran away from the Eighteenth street and Franklin avenue.

He was employed by a transfer company and was making a delivery when the team started away. When he ran after them and caught the reins one of the mules kicked him in the abdomen. He recovered sufficiently at the time to drive the team to the stable and go to his home, where he collapsed, and was taken to the hospital.

10 NEGROES TRIED; 11 GUILTY

Ten Tri-City negroes charged with stealing hogs from freight trains near Venice, may have to be tried again because an Edwardsville jury found 11 guilty.

At the trial the jury made no mention of Claude Smith, one of the men who was on trial. The court directed nolle prosequi in the cases of Charles Lill, Cassius Gargitt and "Shlick" Williams, but the jury listed Williams as guilty. An attempt was made yesterday to readjust the verdict, but there is doubt whether it can be done.

FORMER GERMAN LINER SINKS

NEW YORK, March 3.—The former German passenger steamship Moccasin, which recently completed a round trip to South America, sank today at her pier in Brooklyn. Officers of the Muncion Line, operators of the vessel, said they had not learned what caused her to go down.

Wreckers have started to raise her.

VOTE ON SHANTUNG RESERVATION IS EXPECTED TODAY

Republican Monroe Doctrine and Domestic Questions Qualifications Were Re-adopted Yesterday.

By the Associated Press. WASHINGTON, March 3.—The Shantung reservation to the peace treaty is before the Senate today, with the leaders predicting a prompt vote. The two Republican reservations affecting the Monroe Doctrine and domestic questions were re-adopted yesterday, the former drawing seven and the latter five more Democratic votes than they received in November.

The Monroe Doctrine reservation, which Senators have been told is scarcely less objectionable to President Wilson than that relating to article 10, got the support of 15 Democrats, and won by a vote of 58 to 32, a substantial margin over the Democratic leaders had been rejected. The vote on the Republican proposal was 55 to 34 in November, when only nine Democrats supported it.

The other reservation acted on asserts the full jurisdiction of the United States over purely domestic questions and was adopted, 58 to 25, with 14 Democrats helping to make up the majority. In November it got the votes of only 11 Democrats and was adopted, 59 to 36.

Little Debate Before Vote. Little debate attended the Senate's action, all elements apparently conceding that the successive roll calls were merely formalities to let everyone go on record before the final deadlock, which now generally is expected to put the treaty over the campaign.

On the Monroe Doctrine reservation Democrats who did not vote for adoption in November and having swung over to the Republican on yesterday's roll call were Senators Beckham, Kentucky; Fletcher, Florida; Pittman and Henderson, Nevada; King, Utah; Smith, Georgia, and Myers of Montana.

Their defection on that issue was declared by the Republicans to be a significant development in view of recent intimations that the President had singled out the Monroe Doctrine and article 10 reservations as particularly objectionable.

It was these two reservations that the bipartisan compromise negotiations came to grief, the Republican leaders saying that they would consent to no modification in either and the Democrats insisting that the treaty would be acceptable as they stood.

Democratic Substitute. On the Democratic substitutes presented by Senator Hitchcock of Nevada, the party leader, the vote was strictly on party lines except for Senators Reed, Missouri, and Shields, Tennessee, who voted with the Republicans in opposition.

The domestic questions reservation over to its support five Democrats who had not voted for it in November—Senator Ashhurst, Arizona; Pittman and Henderson, Nevada; Myers, Montana, and Nugent, Idaho.

This proposition also Senator Hitchcock's caustic reply was rejected by a solid Republican lineup, joined again by Senators Reed and Shields.

TWO IDENTIFY YOUTH AS MAULL PAY ROLL ROBBER

Miss Florence M. Droegge Says Ray Renard Took Satchel Containing \$950 From Her.

Ray Renard, 21 years old, of 1830 Benton street, was identified at police headquarters today as one of the two highwaymen who on Feb. 21 took \$950 in payroll money from Miss Florence M. Droegge, 2706 Madison street, as she was on her way from a bank at Fifteenth street and North Market street to the office of Maull Brothers Macaroni Manufacturing Co., 1227 St. Louis avenue, where she was employed as cashier.

He was identified by Miss Droegge and W. E. Gebhart, 1418 St. Louis avenue, who witnessed the robbery, which occurred across the street from his home. Both said that Renard was the one who pointed a revolver at them when his companion took the money, which was in a satchel, from Miss Droegge.

"It all sounds very pretty," said Renard, when Miss Droegge and Gebhart had described the robbery and particularly the part they said he had taken, when they ran away from the North Market Street Police Station when that robbery occurred. Detectives, who had investigated the case, said that Renard was held as a suspicious character at the North Market Street Police Station, but was released more than an hour before the robbery.

Renard was arrested at St. Charles, Mo., last Saturday for jumping a bond at Troy, Mo., where he had been held pending inquiry into an interstate shipment theft. He was named in confessions to the police as the chauffeur who drove the automobile in which robbers escaped after holding up the Voss jewelry store, 1106 Florissant avenue, Oct. 24, last, and the paymaster of Greer Car Wheel Co., 3009 North Broadway, Nov. 8, last.

JUDGE HODGDON: CANDIDATE FOR JUDGE OF SUPREME COURT

St. Louis County Official Files for Long Term in Division No. 2, on Republican Ticket.

Sam D. Hodgdon, of Webster Groves, Probate Judge of St. Louis County, today filed in the office of the Secretary of State, Jefferson County, his declaration of candidacy for the Republican nomination for Judge of the Supreme Court, Division No. 2, long term.

Hodgdon has been active in Republican politics in St. Louis and St. Louis County for many years.

NATIONAL COUNCIL OF SWITZERLAND APPROVES LEAGUE

Determine Whether People Wish Nation to Become Member of That Body.

By the Associated Press. BERNE, March 3.—Adherence to the league of nations by Switzerland was approved by the Swiss National Council yesterday by a vote of 114 to 55. This decision does not bind this country to enter the league, but recommends a plebiscite to be held during April or May, in which the people will voice their desires.

The National Council was asked to approve Switzerland's entrance to the league by the Government a few days ago, after it had been decided to abandon what were known as the "American clauses," by which Switzerland would delay action until the United States Senate had ratified the treaty of Versailles.

By the Associated Press. WASHINGTON, March 3.—Texts of the formal notification of accession by five neutral nations, including three Latin-American states, to the league of nations, have been received in Washington. First among them is that of the Argentine Republic, which, through M. T. D'Alvarez, its Minister Resident in Paris, wrote to Sir Eric Drummond, the secretary general of the league of nations, that he had received instructions from his Government "to adhere unreservedly to the league of nations."

The Paraguayan Minister in London, Cecilio Baez, wrote that his Government "unreservedly accepts the covenant of the league of nations" and that "it binds itself to send its delegates to the first assembly which will be summoned by the Government named in the covenant."

In signing the accession of Chile the minister of that country in London declared "the Republic of Chile makes no other reservation than that of pronouncing in due course upon such amendments to the covenant as the states which have not ratified it up to the present."

It is understood that the purpose of this was to develop the position of the United States before finally committing the Chilean Government to Persia "adheres unreservedly" in a note signed by Firouz, the Persian Minister of Foreign Affairs. Also Persia "adheres unreservedly" to the duties and obligations imposed by the states belonging to the league and to send delegates to its first general assembly.

The Spanish Ambassador in London recorded the accession of his Government in a note in which, after reciting the unanimous act of the Cortes, giving the necessary authority, he said that Spain joined the league "without reserve."

By the Associated Press. NEW YORK, March 3.—Government agents were victorious in the first pitched battle to result in New York from enforcement of the prohibition law, and today the victors triumphantly turned over to the Customs authorities 537 bottles of cognac seized aboard the Italian steamship President Wilson.

Reset on all sides by many members of the crew who switched off lights far down in the ship's interior and smashed bottles by flinging heavy pieces of iron, a half dozen men from the office of Thomas E. Rush, Inspector of the Port, finally carried the liquor off the ship.

By the Associated Press. WASHINGTON, March 3.—Admiral William S. Benson, retired, was today nominated by President Wilson to be a member of the Shipping Board.

By the Associated Press. NEW YORK, March 3.—John Beal, 3 years old, son of Mr. and Mrs. Roy Beal, residing in Frankfort Township, was scalded to death yesterday by falling into a tub of boiling water.

GIRL STRUCK BY AUTO. IN SERIOUS CONDITION

MISS ALENE SOUTHWORTH.

YOUTH ADMITS HE DROVE AUTO THAT HIT GIRL STUDENT

Continued From Page One.

took her home in my machine. She did not know it was my car that had hit Miss Southworth and we did not inform her, I would have surrendered Sunday, but I was afraid the thing would worry my parents."

"Bud" Clymer, 5207 Maple avenue, previously had informed the police that the car which hit Miss Southworth was racing along King's highway and was a seven-passenger Chandler car. "I was returning from Bevo Mill and was driving about two blocks ahead of the car," he told the police.

"The driver of the other car was trying

DRASTIC ORDER AGAINST STRIKERS GRANTED KINLOCH

Union, Its "Aiders and Sympathizers" Forbidden by Court to Do Anything to Aid in Wiremen's Strike.

PAYMENT OF UNION BENEFITS BARRED

Walkout Held to Have Been Violation of Contract to Run Until August—Bond Required of Companies.

A drastic restraining order against the officers of Local No. 2, International Brotherhood of Electrical Workers, their "associates, aiders, sympathizers and abettors," was granted yesterday afternoon by United States District Judge Faris, on petition of the Kinloch Telephone Co. and the Kinloch Long Distance Telephone Co., 39 of whose wiremen have been on strike since Feb. 9.

The restraining order is in force until March 13, when a hearing will be held. In the meantime, by the court's order, at least 50 copies of the order are to be printed and posted by the United States Marshal at places near the telephone exchanges.

Aid of Strike Forbidden. The order, which is in 12 sections, forbids the defendants to do anything to aid in the continuance of the strike, which is declared to have been called in violation of a contract, legal force until Aug. 1 next. The order of strike benefits, or the doing of anything at any union meeting, or elsewhere, which shall tend to continue the strike or to aid those engaged in it, is forbidden specifically.

The defendants named are the local union and O. J. McSpadden, secretary of the conference board; Orville E. Jennings, international representative; Al H. Givens, business agent of the local; Harry Thompson, vice president of the local; D. Nohi, financial secretary, and these members of the Executive Board: Ed Arnold, William Lantz, Frank Wade, Frank Kauffmann and Frank Luken, besides their associates, confederates and attorneys.

The telephone companies are required to give a joint bond of \$5000, whereupon the restraining order shall be in force against the defendants, their agents, representatives, associates, aiders, sympathizers and abettors.

Actions Prohibited. The list of things which the defendants are restrained by the order from doing is as follows:

1. Compelling, advising, persuading or inducing, by threats, intimidation, force or persuasion, any employee to leave service or fail or refuse performance of duty.
2. Compelling, etc., any person desiring to seek employment from accepting such employment.
3. Compelling, etc., the former employees out on strike to continue the strike, in violation of the contract of July 8 last.
4. Compelling, etc., any employee on strike to violate or continue to violate the agreement of duty.
5. Paying any strike benefits, or directly or indirectly giving financial aid or assistance to any employee on strike, or who may go on strike.
6. Interfering with the companies in the conduct of interstate commerce.
7. Trespassing on the company's premises, or in any way communicating with the employees, or those formerly employed, for the purpose of inducing or persuading them to break the contract; or interfering in any manner with any of such former employees who may desire to return to work.
8. Doing anything, at any meeting of the local or otherwise, that will in any way tend to continue the strike or to persuade, induce or give comfort or aid to the former employees in breaking their contract.
9. Interfering by force, threats or intimidation, with the employees performing their duty under the interstate commerce act.
10. Doing anything of any kind or nature, having for its purpose the continued breaking of the contract.
11. Inducing any employee, present or future, by force, threats or intimidation, to leave the service.
12. Aiding or abetting employees, in any way, in breaking the contract.

Companies' Contention. The companies alleged, in the petition for the restraining order, that conferences with the employees began only last, Jennings representing the employees. It was agreed, the petition says, that no discrimination or coercion should be used against union members, and that the solicitation of union membership was to be unhindered, except in working hours, on to determine wage rates, and it was agreed that there should be no stopping of work.

The employees agreed in writing, it is alleged, to abide by the findings

Former "Holy Terror" Building Up Central Church

The Rev. Dr. George C. Richmond Moves Among Business Men, Rather Than Clergy.

The Rev. Dr. George Chalmers Richmond, preacher of national reputation, once known as "the holy terror" of the Protestant Episcopal diocese of Philadelphia, has become a figure in the civic life of St. Louis. Since the first of the year, he has been here as pastor of Central Church, founded by the late Rev. Dr. W. J. Williamson, and meeting in the Wednesday Club Auditorium, Westminster place and Taylor avenue.

Dr. Richmond, a bachelor, lives at Hotel Statler, and he intends to serve as a community pastor, just as he hopes to make Central Church a great undenominational community congregation. In extending his acquaintance in St. Louis, he has thus far moved among business men and in social and commercial organizations, rather than in gatherings of clergymen.

Dr. Richmond is 48 years old, a New Englander, and a Yale graduate, class of '95. He was ordained to the Episcopal ministry in New York in 1910, and was assistant to the late Bishop Huntington in charge of an East Side chapel. His parishioners were mostly workmen, and complaint was made that he drank beer with some of them. "Why not?" was his reply to his critics. "I am a local optician."

Supported Strike. For 12 years he was rector of old St. John's Church, Philadelphia. He supported striking street car employees in 1910, and was made a fraternal delegate to the Philadelphia Central Trades and Labor Union. Some persons high in the church did not like this, and Dr. Richmond was in a controversy with his Bishop. "Religious gangsters and 'tools of Wall street'" were terms which he applied to his critics at that time.

A year later, he invited a Jewish rabbi to occupy his pulpit. Bishop Alexander Mackey-Smith termed this one of Dr. Richmond's "unpardonable eccentricities." The minister replied with the assertion that the Savior, if he were on earth, would advocate the open pulpit.

In the summer of 1911, in preaching on "Sins of Society," Dr. Richmond denounced the intended marriage of John Jacob Astor, who had been divorced, and the young woman who soon afterward became Mrs. Astor, and who was left a widow, some months afterward, in the Titanic disaster. These sermons had wide publicity, and again the preacher was on the carpet before his superiors.

Stumped State for Roosevelt. "I hate to see Yale men come to what you are," wrote the Bishop. "Your vestry may stand by you for the present, but your next outbreak of fanaticism may lead to the expulsion of one of them. Believe me, you might become a decent, respectable, useful fellow."

To which Dr. Richmond replied: "You people are too self-satisfied and too stupid to understand myself. My soul is saved, why should

of a board of arbitration, and such a board was named, and made a report, which it is alleged was legally binding upon both employers and employees. This provided for one year, beginning Aug. 1 last, and the agreement should continue until terminated by either side on 30 days' notice.

Jan. 30 last, it is alleged, at a meeting of local No. 2, members were present, including only 13 of the company's employees. At that meeting, it is stated, a vote was taken for a strike of the Kinloch employees. The employees say they have reason to believe that 19 women's votes in Kentucky for the Republican party.

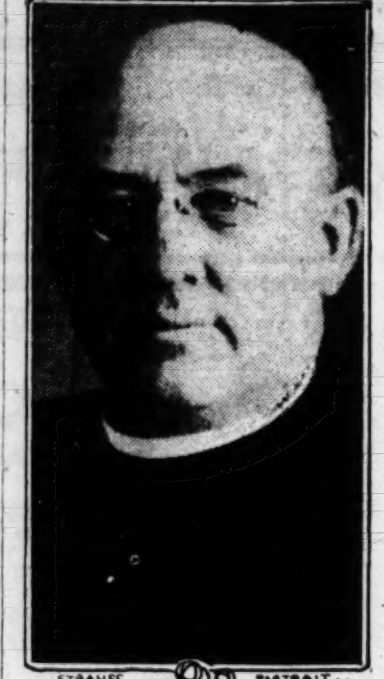

"We are just beginning to open our eyes in politics," she told the convention, "but before long we are going to make ourselves felt and you can count on Annie Summe Banks, of Winchester, to do her part for the grand old party."

She was a delegate from the district Henry Clay once represented in Congress.

CITY STARTS MAKING CONCRETE POSTS FOR ELECTRIC LIGHTS

3500 Standards Must Be Manufactured Under New Code. The manufacture of 3500 concrete posts for use as electric light standards in the parks has been started at the municipal dock at the foot of North Market street. The posts will be installed by Aug. 15, and are necessary because the gas lighting contract expires Sept. 1.

Material will be mixed with the concrete to give the posts, which will be 17 feet high and of appearance of red granite, and the iron lamp holders at the top probably will be colored to resemble bronze. Each standard will have a single, large electric lamp. The posts and installation of seven miles of cable will cost about \$250,000.

REV. DR. GEORGE CHALMERS RICHMOND

I bother about other people's souls. That is your doctrine, but it is not the spirit of Christ."

In 1912, Dr. Richmond stumped Pennsylvania in the Roosevelt Progressive party campaign. This displeased some churchmen, and Dr. Richmond, in maintaining his right to take part in the Progressive movement, declared that the Episcopal Church was taking its orders from Wall street. He has since termed himself a Christian Socialist.

In 1915 Dr. Richmond was summoned to appear before the Ecclesiastical Court of the Protestant Episcopal diocese of Philadelphia, and stand trial for alleged violation of his ordination vows and disregard of his Bishop's orders. Bishop Philip Mercer Rhinelander, successor of Bishop Mackey-Smith, the charge was that he had written insulting letters to the Bishop, and had otherwise acted in an insubordinate manner.

Wellcome All Creeds. Dr. Richmond acted as his own counsel, and the charge failed, but the bishop was held to have authority, under an amended canon, to suspend him for one year. He refused to give up his parish, and a letter-writing controversy followed. He finally requested the bishop to depose him and went to Calvary Baptist Church of New York.

As pastor of Central Church, he has announced that persons of all creeds are welcome, but that the church is to be maintained without denominational connection. A few persons, he declared, will be punished him as he ought to be punished. Perhaps then we can end the high cost of living."

Wood Pities Johnson if Senator Is Any Poorer Than He Is.

DETROIT, Mich., March 3.—Major-General Wood after reading a dispatch from Mitchell, S. D., last night quoting Senator Hiram Johnson as charging that Republican candidates for the presidential nomination were spending large sums in their South Dakota campaign said: "If he is any poorer than I am I pity him from the bottom of my heart."

"The Senator is a friend of mine," said Gen. Wood. "He has my utmost respect."

Gen. Wood concluded a busy day of speechmaking last night on his first tour of Michigan as an avowed candidate for the Republican presidential nomination.

PORTUGUESE WORKMEN REPORTED PROCLAIMING SOVIET REPUBLIC

By the Associated Press. MADRID, March 3.—Reports from the Portuguese frontier today declare that the workmen in Portugal have proclaimed a Soviet republic. The postal, the telegraphic and other workers are said to have joined the railroad men in the move. The news, which reached here from the border by telephone, has not been confirmed.

MILAN, March 3.—In compliance with orders from Socialist leaders, workers who have been on strike at tempted to resume work yesterday but Anarchist groups attacked factories, the tramway and stores and compelled a continuation of the strike.

Radicals seized a number of Milan establishments and proclaimed a Soviet, but were expelled by military forces. An attack on the Labor Exchange by Anarchists was repulsed by the troops.

LOWDEN AND WOOD MONEY PLENTIFUL IN SOUTH DAKOTA

Senator Johnson Declares Such Extravagant Expenditures Seldom Have Been Made in a Primary.

"I CANNOT COMPETE WITH THEM," HE SAYS

Californian Asserts It May Be Their Good and His Bad Fortune That He Is Not Backed by Any Trust.

By the Associated Press. MITCHELL, S. D., March 3.—Senator Hiram W. Johnson of California last night opened fire upon his leading opponents for the Republican nomination for the presidency, charging that the expenditure of money in the South Dakota primary is such as has seldom been seen in any campaign.

"It is obvious," said the Senator, "that this State has become a tremendous battleground of the wealth and power and financial resources of my two leading opponents."

Maj.-Gen. Leonard Wood and Gov. Frank O. Lowden, of Illinois, are the conceded leaders in the South Dakota campaign.

"Seldom in any State has such an extravagant expenditure of money in a primary campaign been seen. I cannot compete with them in this kind of contest—it may be their good fortune and my misfortune that they can expend enormous sums of money and that I cannot. I have back of me no great corporation, no trust, no powerful financial interests."

"I am depending here, as ever in my political contests, upon the home-loving, God-fearing, free patriotic citizenship, the inarticulate mass who make this country great and insure its future destiny."

In discussing the high cost of living, he declared, no man has discovered a panacea, Senator Johnson denounced the profiteer as a traitor.

"I cannot cure the high cost of living," he said, "but I cannot cure it by running the scale scientifically from the original producer to the ultimate consumer and when we ascertain where the profiteering is we will take the profiteer and punish him as he ought to be punished. Perhaps then we can end the high cost of living."

WOOD PITIES JOHNSON IF SENATOR IS ANY POORER THAN HE IS.

DETROIT, Mich., March 3.—Major-General Wood after reading a dispatch from Mitchell, S. D., last night quoting Senator Hiram Johnson as charging that Republican candidates for the presidential nomination were spending large sums in their South Dakota campaign said: "If he is any poorer than I am I pity him from the bottom of my heart."

"The Senator is a friend of mine," said Gen. Wood. "He has my utmost respect."

Gen. Wood concluded a busy day of speechmaking last night on his first tour of Michigan as an avowed candidate for the Republican presidential nomination.

PORTUGUESE WORKMEN REPORTED PROCLAIMING SOVIET REPUBLIC

By the Associated Press. MADRID, March 3.—Reports from the Portuguese frontier today declare that the workmen in Portugal have proclaimed a Soviet republic. The postal, the telegraphic and other workers are said to have joined the railroad men in the move. The news, which reached here from the border by telephone, has not been confirmed.

Radicals seized a number of Milan establishments and proclaimed a Soviet, but were expelled by military forces. An attack on the Labor Exchange by Anarchists was repulsed by the troops.

NUISANCE OF BOY AUTO WATCHER TO BE ELIMINATED

Theaters and Department Stores Decide to Let Only Licensed Watchmen Look After Cars.

The boy volunteer car-watcher, a nuisance with which theatergoers who own automobiles are familiar, will be done away with, under a rule adopted today, at a conference of theater and department store managers, on the subject of automobile parking. The conference was held in the Board of Public Service room, Street Director Talbert attending.

It was agreed that no one but licensed watchmen shall be permitted to watch cars, or to have anything to do with the parking of cars or their movement to and from theaters. Boys who solicit the job of watching cars have been the subject of frequent complaints, as in some cases they have been accused of mutilating cars whose owners would not employ them. The same nuisance was abolished last summer in the vicinity of the baseball parks.

It was also decided that a parking district, with special regulations, shall be established in the amusement district along Grand avenue. Director Talbert is to fix this district. Downward of the parking regulations will apply, but will be carried out by licensed watchmen only.

Wallace Capen, an automobile dealer, expressed his opinion that no one would be able to do the job, as he said all persons in such work whether having a watchman's license or not, would "have their palms out."

GOVERNOR CALLS MEETING OF NEAR EAST RELIEF COMMITTEE

Progress of Campaign for Adoption of Armenian Orphans to Be Discussed Friday.

Gov. Gardner, who is serving as State chairman for the Near East Relief, has issued a call for a meeting to be held at Hotel Statler at 4:30 o'clock Friday afternoon to discuss progress of the campaign being conducted in the city for the "adoption" of 1036 Armenian orphans. A letter signed by the Governor was mailed yesterday to 375 prominent business men, urging their attendance.

Reports were made at campaign headquarters, Broadway and Olive streets yesterday of checks received from the following women for \$180 each, which is the amount required for the support of an Armenian orphan for one year: Mrs. B. F. Bush, Mrs. Claude Mathews, Mrs. Seth Cobb and Miss Bertha Bates. The Governor's mail also included substantial checks from Mrs. Warren T. McElroy, Mrs. Sarah H. Shepley, Mrs. S. Wolff and Mrs. Frances E. Cockrell.

Several instances of children and adults soliciting funds for the Near East Relief in various parts of the city have been reported to Mrs. M. Hayward Post, chairman of the women's division. People should not give to those persons unless they ask to produce proper credentials, she says.

OVERDOSE OF ASPIRIN CAUSED WOMAN'S DEATH, POLICE REPORT

Coroner Orders Inquest in Case of Mrs. Bessie Brearley Who Expired at City Hospital.

Police reports received by the Coroner today in the case of Mrs. Ada Breshear, 42 years old, 4015 West Pine boulevard, who died Monday, stated that she had taken an overdose of aspirin and bromide potassium.

According to the reports, Mrs. Breshear's husband, George Breshear, stated that she had been ill two weeks before she was removed to the hospital, Feb. 25. On the latter date, he said, her condition became serious and a physician advised her removal to the hospital.

Mrs. Florence Johnson, 4018 West Pine boulevard, told the police that she had attended Mrs. Breshear and that the latter was unconscious three days before her removal to the hospital.

The Coroner ordered an inquest.

AUTOIST PENALIZED AT CLAYTON

Henry Oth, 6301 Ridge avenue, Wellington, a butcher, was assessed costs of \$7.60 by Justice of the Peace Werremeyer at Clayton this morning for driving his auto truck on the Natural Bridge road without lights. Oth declared that he had been picked up in 1919 and in 1918 on the same charge.

38 DEFENDANTS IN THE NEWBERRY CASE DISMISSED

23 Discharged Yesterday and 15 Today; 85 Left on Trial; One Count of the Indictment Stricken Out.

By the Associated Press. GRAND RAPIDS, Mich., March 3.—In addition to the dismissal yesterday of the charges against 23 defendants in the Newberry election conspiracy trial, Judge Sessions today discharged 15 other defendants, leaving 50 on trial.

The fifth count of the indictment was also dismissed. This was the one founded on the Federal statute of Oct. 16, 1918.

Yesterday's action was taken by Frank C. Dailey, Assistant Attorney-General, just after he had announced the end of the prosecution's direct testimony. On 11 minor defendants were in the list.

It was predicted that not to exceed three weeks will be devoted to defense testimony. That a conspiracy of the number of defendants, and the possible narrowing of the issues, it was said, would tend to shorten the evidence.

Judge Sessions said that a "very close attention to the prosecution's evidence and a careful study of the evidence" had convinced him that he would be unwarranted in holding the men named today for a jury verdict. He directed the clerk to enter a formal verdict of "not guilty" in the 15 cases.

Judge Sessions denied defense motions for dismissal of counts three and six of the indictments. He then notified James O. Murrin that it would be useless to argue a motion for a directed verdict as to all the defendants, as he would deny it.

In overruling a motion to dismiss counts three and six, Judge Sessions said: "The object of a conspiracy may never be accomplished, but that has nothing to do with the guilt or innocence of a defendant. If a conspiracy is entered into and some one or more acts done in the direction of the conspiracy's object, then the crime is complete even if the conspiracy is not accomplished."

MAPLEWOOD RESIDENTS DISCUSS 45-CENT SCHOOL TAX INCREASE

Committee Will Canvas Town in Effort to Find Out Sentiment Before Vote Is Taken.

Residents of Maplewood at a mass meeting last night considered the advisability of increasing the school tax in that municipality from \$1.70 to \$2.15, an increase of 45 cents annually on each \$100 of the assessed valuation. The present tax embraces a sinking fund tax of 35 cents and the regularly provided school tax of \$1.35. It is proposed to increase the latter to \$1.80.

Amandus Blackman, an attorney, was made chairman of a committee of 70, which will canvass the town in an attempt to elicit sentiment favorable to the proposed increase, which is expected will be voted upon at the election April 6.

Speakers said that unless taxes were increased and teachers' salaries raised the municipality would be unable to hire competent teachers for its schools. It was stated that salaries were to be raised in University City and other St. Louis County municipalities. The point was also made that while Maplewood has 2300 pupils in its schools and an assessed valuation of \$550,000, and that Webster Groves, with no more pupils, has an assessed valuation of more than \$7,000,000. Maplewood has one high school, three grade schools and one school for negroes.

Several speakers said that a tax were to be increased it might be better to be annexed to St. Louis and secure the benefit of the city schools.

FIVE IN AUTO KILLED BY TRAIN

Another of Party Returning From Legion Dance Injured.

By the Associated Press. ARDMORE, Ok., March 3.—Five young people of Wilson and Long Grove, Ok., 22 miles west of here, were killed and one probably fatally injured early today when an automobile in which they were returning from an American Legion dance here was struck by a freight train at a crossing.

DOBBIN LOST HIS CHASER AT DEATH OF J. BARLEYCORN

Drinking Fountains for Horses Closed With Saloon and Team Owners Are Kicking.

When saloons existed in St. Louis, their keepers, in many instances, set up drinking fountains for horses adjacent to their places of business, and for years the city and team owners depended upon them for water for horses.

Now the saloons have gone, and the drinking fountains with them, so that there remain only eight places in the city where horses can get a drink. There formerly were between 250 and 300 fountains.

This condition was the subject of discussion yesterday by the National Team Owners' Association, Associated Team and Truck Owners' Association and the Coal Haulers' Service Exchange at a meeting in the Pontiac Building.

The team owners declare that they are assessed \$3 per horse to pay for water consumed each year and feel that they should not be called upon to provide the fountains.

They said that they had appealed to the Water Commission, but were told that the city had no funds available for the maintenance of the fountains, and were referred to the Humane Society.

George Dieckman, president of the Humane Society, said today that when the saloons began closing he wrote letters to breweries and saloon keepers controlling the fountains, asking if they would donate the fountains to the city. He said that he received replies which indicated that if the city would pay the upkeep, he said that he had made a request for such a promise from Director of Public Utilities Hooke, but had received no reply.

12 ITALIAN GIRLS MUST LEARN TO READ IN 60 DAYS TO WED

Young Women, Who Came to U. S. to Marry Soldiers, Will Be Admitted Conditionally.

By the Associated Press. NEW YORK, March 3.—Twelve Italian girls who came to the United States to marry American soldiers, but who have been held at Ellis Island because they could not pass the literacy test, learned last night that Washington had ruled they may be admitted to the country for 60 days—providing they sign a pledge not to marry during that time.

If Senator Calder's bill to exempt them from the reading test is passed, they will be free to wed their soldier lovers. Even if the bill fails to become a law, there is a chance for the girls, for during the 60 days they may learn to read the required 40 words.

The news spread so rapidly, and the doughboy Romeos acted so promptly that it was said at Ellis Island that four or five of the girls plan to leave tonight to join their men live in distant cities. Every man had expressed his determination to send his "girl" to school—day, night, or both—until she can read 40 words.

Some of the fiancées have been at Ellis Island since October.

APARTMENT OWNER SUMMONED

Violation of Heating Ordinance at 4336 West Pine Alleged.

A summons under the new ordinance requiring that apartment temperatures be maintained in apartment houses was issued today for Morris Kauffmann of 4336 West Pine boulevard, owner of apartments at that address and next door, at 4338. Dr. John C. Morris, of 4338 West Pine boulevard, is named as complaining witness, and Mrs. Annie Bohn, of 4503 Alice avenue, Chief Engineer Edward D. Smith, of the United Rastadys Co., are also named as witnesses.

The complaint was filed by a sanitary inspector of the Health Department, who alleges the offense occurred Feb. 17.

WIFE, WHO ELOPED AT 17, SUES FOR DIVORCE

Mrs. Vera De Jong Graves Charges Husband Treats Her With Indifference.

Mrs. Vera De Jong Graves of 2525 North Grand avenue filed suit today to divorce Clarence E. Graves, with whom she eloped to Waterloo, Ill., Jan. 4, 1917, when 17 years old.

She alleges that he had no affection for her, was cold and indifferent, preferred the society of others and was fault-finding. He entered his appearance and will not contest her suit.

The petition states that they separated Jan. 1 last.

Graves, who is familiarly known as "Buz," to his acquaintances, was until recently manager of the Holmes automobile agency here, which is owned by his wife's stepfather, Dr. Sebastian Klein. Before that he had been a salesman for the Liggett & Myers Tobacco Co. He is 30 years old.

Mrs. Graves, who is living at her mother's home, recently recovered from pneumonia, and it was understood that the filing of the petition was delayed until she regained her health.

TWO REALTY FIRMS TO BE CITED IN SAME HEAT CASE

Both Deny Control of Apartment House When New Ordinance Was Violated.

When the case against the Julius Haller Realty Co., 18 North Eighth street, charged with having failed to provide sufficient heat for apartments at 4254-62 Harris street, was called in Police Court today, the company produced evidence which they claimed showed that the property was under the management of the Dyas-Shelp Realty Co., 107 North Ninth street, at the time of the alleged violation of the heat ordinance.

The original complaint was filed against the Dyas-Shelp company, but last Thursday these charges were withdrawn by the City Counselor's office on representations, that on Feb. 16, the date named in the complaint, that company had not taken over the management of the apartments which, they said, were then under the management of the Julius Haller Realty Co. A summons was then issued, instead, for the latter company. Judge Mix ordered that a summons be issued for both companies to appear March 19 when it could be determined which company was responsible for the alleged violation.

A similar case against the William J. Helming Real Estate Co., 30314 Franklin avenue, charged with failure to provide heat for apartments at 4178 Enright avenue, was continued to April 2, the attorney for Helming stating that his client had been seriously injured in an automobile accident and would be unable to appear in court for several weeks.

CHILDREN OF WEST ALASKA HAVEN'T HAD CHRISTMAS YET

SEWARD, Alaska, Feb. 10 (By mail).—Christmas of last year has not yet arrived for the youngsters who live at Alaska points west of Seward, as no regular boat has carried mail or freight to the westward towns since last fall. A boat will soon be put on the run, however, and Christmas presents ordered last fall will arrive before Easter.

The new boat on the line will be the power schooner Joseph Pulitzer, formerly a pilot boat operated at the mouth of the Columbia River. The Pulitzer will run to Kodiak, Unalaska, San Point, Unalaska and other points formerly served by the steamer Dorcas, which was on the westward run for years.

STANDARD EIGHT A Powerful Car

THE Standard Eight has power to meet any emergency of traffic. It delivers that power so easily that its performance is as unostentatious as are its finish and appointments.

Coupled with the pride of ownership in its beauty and performance is the lasting satisfaction that comes from its economical operation and reasonable upkeep charges.

Built by the Standard Steel Car Company, world famous as master builders of railroad rolling stock, the Standard Eight does not develop weaknesses in construction which sometimes show even in high-priced cars under rough usage.

SCHLESWIG-HOLSTEIN PROCLAIMED A STATE

Coup Cutting Away Territory From Prussia Occurs While Allied Mission Is Absent.

By the Associated Press.
LONDON, March 3.—Representatives of the Schleswig and Holstein organizations, together with members of various political parties assembled at Rendsburg, Holstein, yesterday to proclaim the emancipation of Schleswig-Holstein from Prussia and the establishment of a new state, says a dispatch from Flensburg.

According to the dispatch the State Commissioner, Dr. Koester, in an address said: "I am going to Berlin this evening and hand over this declaration of independence."

COPENHAGEN, March 2.—The coup in Schleswig-Holstein in which a new state was established by the cutting away of Schleswig-Holstein from Prussia occurred while the three leading members of the international commission were absent from Flensburg. The commissioners, Charles M. Marling, head of the plebiscite commission in Schleswig-Holstein, representing Great Britain, M. von Sydow, representing Sweden, and Gen. Claudel, representing France, are hurrying back.

10-HOUR AIRPLANE SERVICE, NEW YORK TO FRISCO, PREDICTED
Cleveland Man Thinks Trip Can Be Made in That Time at 20,000 Feet Altitude.

NEW YORK, March 3.—Aerial mail service "is not costing the public one cent, but is saving the people more than \$100,000 a year," Assistant Postmaster-General Prager informed members of the Rotary Club at their "aviation" dinner last night.

"It cost considerably less than \$400,000 a year," he said, "to operate a 1500-pound mail capacity airplane one round trip daily between New York and Chicago, and by the establishment of such a schedule the Postoffice Department has been able to discontinue nearly \$500,000 worth of railroad distributing space and clerical hire."

Explaining that air mail letters go at the same postage as train letters, and that the service simply supplements the great railway mail transportation system, he added: "Its schedules are so woven in with the train schedules as to expedite letter mail by 12 to 16 hours. A letter mailed by a New York business man by 1 a. m. Monday will arrive in San Francisco by 9 o'clock Wednesday morning instead of Thursday afternoon by train."

Introduction within a short time of a 10-hour airplane service between New York and San Francisco at an altitude of 20,000 feet, was predicted by Glenn L. Martin, of Cleveland, another speaker. This altitude, he explained, would insure a sunshiny trip "as all storm strata are at low altitudes."

Drug Clinic to Close.
By the Associated Press.
NEW YORK, March 3.—The Health Department clinic for drug addicts will be closed on Saturday, March 6, because the number of persons being treated has fallen below 100, Health Commissioner Copeland announced today. It will be reopened should there be an increase in addicts, he said. Between 6000 and 7000 addicts have received treatment at the clinic in the last year, Dr. Copeland said.

PALMER IN RACE SAID TO SHOW WILSON IS OUT

Foreign Situation Prevents President From Making Public Renunciation.

Special to the Post-Dispatch.
WASHINGTON, March 3.—A. Mitchell Palmer's announcement of his presidential candidacy in his telegram to the Georgia State Committee is accepted as meaning that President Wilson has advised him that he need not consider the possibility of any third term desire coming counter to the Attorney-General's ambition.

Within the week Palmer is known to have indicated that until it was definitely known the President would not be a candidate his hands were tied against reaching for the big prize, as he felt bound to support his chief politically as well as in the Government. From his appearance as a candidate the inference is that the President had conveyed to him the intention of not being a candidate.

Palmer's friends want him to go a step further and draw the deduction that it also meant President Wilson had decided on the Attorney-General as his political legatee. But to this interpretation the friends of the other potential candidates, disapproved. McAdoo's supporters were particularly insistent that presidential permission to advance a candidacy did not involve presidential support.

An explanation is advanced of the President's withholding public announcement of his renunciation of third term purposes. It is said he feels such an announcement would weaken his influence abroad, where the people are as vague about our political system as we are about theirs and where a declaration of the sort indicated would be regarded almost as an abdication.

Mr. McAdoo was here, but returned to New York yesterday morning and there was in some quarters an effort to find some connection between that circumstance and Palmer's announcement.

At least the Attorney-General's telegram has cleared the Democratic situation. All the candidates are expected to declare themselves now.

GLASS OF MAY APPLE WHISKY, MEDICINE, LEFT BY BURGLAR

Only Swallow Taken, Says Owner, Finding Bottle on Table; Liquor Removed at Another Home.

May apple whisky—a medicine—didn't suit the palate of a burglar who visited the home of George Gaus, 6518 Nashville avenue, in the family's absence yesterday. He took the bottle from a chest and started to take a drink from a glass, but drank but a small swallow, the police were told, leaving the bottle and partly filled glass on a table in the house. Jewelry valued at \$155 was taken from other rooms in the house. More palatable liquor consisting of 8 quarts of whisky, 10 quarts of gin and 5 pints of champagne, valued at about \$300, was stolen from the home of Joseph A. Neuwirth, 3524 Kingsland court, in the absence of the family. The thieves took two suit cases also, apparently carrying the liquor away in them. A pistol and jewelry valued at \$150 also were stolen.

Capt. Agnes Dehelt of the Salvation Army, 1215 St. Ange avenue, found a burglar had visited her home in her absence when she returned last night. Dress goods valued at \$60 had been taken. She gave a description of a man in soldier's uniform who had appeared at the home begging earlier in the day when she was preparing to depart.

Other burglaries reported were in the home of John Wagner, 5414 Alaska avenue, \$60 and jewelry valued at \$75, and Mrs. Mary Krause, 1805v Allen avenue, jewelry valued at \$125.

WIDOW OF CLOTHING MERCHANT DIES WHEN AT THEATER

Mrs. Laura Rosenthal Had Suffered From Heart Disease for Several Weeks.

Mrs. Laura Rosenthal, 73 years old, of 5774 Westminster place, died of heart disease yesterday afternoon when attending a vaudeville performance at the Grand Opera House, 514 Market street. She was the widow of Aaron Rosenthal, former wholesale clothier, who died eight years ago.

She was accompanied to the theater by her two daughters, Mrs. J. R. Dick, with whom she lived, and Mrs. J. R. Dick of 5785 Westminster place. She had been in ill health for several weeks, but yesterday was feeling better than for some time. When she collapsed she was carried into the American Hotel Annex, where a physician pronounced her dead.

In addition to her daughters, she is survived by three sons, Abraham Rosenthal, editor of "The Modern View," a Jewish weekly; Sam Rosenthal, of the Western Advertising Co., and Robert Rosenthal, who is in the silk business in New York. She was a sister of Mrs. Clara Zerk, 6116 Pershing avenue. The funeral will be at 2:30 p. m. tomorrow from a chapel at 435 Euclid avenue, to Mount Olive cemetery.

Repeal of Profits Tax Urged.
Repeal of the excess profits tax is urged, and the tax is declared to be "a deterrent to business progress" in a resolution adopted by the executive committee of the St. Louis Manufacturers' Association yesterday. The movement to bring about repeal of the tax was started by the appointment of James E. Smith, a lawyer, as a member of the Interstate Commerce Commission, was endorsed.

AVIATOR AND TWO PASSENGERS BURNED TO DEATH IN SEAPLANE

Capt. R. C. M. Page, Decorated for Distinguished Service Overseas, Pilot Who Met Death.

By the Associated Press.
FORT MYERS, Fla., March 3.—Capt. R. C. M. Page, who was decorated for distinguished service in overseas air service and two passengers were burned to death near Everglades, Fla., late yesterday when their seaplane caught fire. Capt. Page was said to have brought down three German planes in France.

Capt. Page as pilot of the plane, started on a flight with G. Hunter Bryant, tax assessor, and Thomas H. Colcord, member of the City Council, to assess road taxes in the southern part of Lee county.

Give Stomach What It Needs

The Alkaline Effect of Stuart's Dyspepsia Tablets Usually Corrects the Stomach Faults That Provoke Attacks of Indigestion or Dyspepsia.

To sit back after a good meal and know there is not going to be sour risings and gas, drowsiness and discomfort is the logical result of using Stuart's Dyspepsia Tablets immediately after eating. Most people believe they can trace each attack of indigestion to the something they ate and can still "taste." And it surprises them, invariably, to note how quickly relief comes after using one or two of these tablets. Whether it is highly seasoned food, rich pastry, the heavy hearty foods or some one particular offender the relief comes just the same. Those who are susceptible to attacks of indigestion or dyspepsia should try Stuart's Dyspepsia Tablets as they supply the stomach with an alkaline effect just as it does naturally when it is working in a perfectly healthy condition.

Stuart's Dyspepsia Tablets are so widely known and used that you can get them in any drug store in the United States and Canada at 50 cents a box.

Service in Office Moving

PROMPTNESS—co-operation with the building management—experienced men in charge, who take pride in their work—twenty-five trucks and over one hundred men at your command—these are the outstanding features of our office-moving service.

OUR office-moving superintendents, with many years of experience, will arrange the desks and other paraphernalia in a manner to take the greatest advantage of the facilities offered for lighting and air and to suit your particular needs.

EVERY facility offered by our packing department is at your service—on a moment's notice—for preparing files, valuable papers, books, etc., for moving.

A telephone call will place a representative at your service, who will arrange all details for prompt moving to your new quarters.

MERCANTILE TRUST COMPANY, St. Louis

Owns and offers, through its Real Estate Loan Department, the following

First Mortgage Real Estate Serial Notes

THESE notes are stable investments, safe at all times. Our serial method of making a specified number of the notes payable each six months or year reduces the outstanding indebtedness without releasing any of the security. The annual or semi-annual reduction of the loan is sufficient to cover any reasonable depreciation in the property mortgaged.

You will receive an unchanging income, payable semi-annually. This income will be paid promptly and with no more trouble to you than cashing a check.

Your investment will run for a certain number of years and then mature. The date when the note matures will depend on your selection when investing.

The genuineness of each note is certified thereon by the Mercantile Trust Company, thus preventing forgery or over-issue. The Legal Department of this Company has examined and approved the titles to all property securing these notes.

The building shown here with towers and pin-tracks across of ground located on Kingshighway boulevard and San Francisco avenue in St. Louis, Missouri, are security for this loan.

UNITED DRUG BUILDING COMPANY

St. Louis, Missouri

(A corporation controlled by the United Drug Company of Boston, Massachusetts.)

6%

\$500 FIRST MORTGAGE REAL ESTATE NOTES

Total issue, \$1,750,000. Valuation of real estate security, \$3,000,000. Denomination of notes, \$100 and \$500. The notes are dated August 15th, 1919, and mature annually on August 15th, commencing August 15th, 1920, to and including August 15th, 1933, thus liquidating the entire indebtedness in fourteen years.

Payment of principal and interest is guaranteed by an irrevocable lease for a term of twenty years, expiring August 14th, 1939, to the United Drug Company of Boston, Massachusetts, for an amount sufficient to pay principal, interest and all fixed charges during the life of this issue.

SECURITY: The notes are secured by a first deed of trust on three tracts of land in the City of St. Louis, containing approximately 14.6 acres, fronting on the east and west sides of King's Highway boulevard along San Francisco avenue. There is now in course of construction on the property lying west of King's Highway boulevard four reinforced concrete, fire proof buildings, illustrated above, containing in the aggregate about 12 acres of floor space. Three of the buildings are to be seven stories in height, the fourth being a boiler and power house. The buildings are modern in design, finish and equipment, and contain a total of eight elevators and complete sprinkler system. Two spur tracks connecting with the St. Louis Terminal Railway extend to shipping platforms adjoining two of the buildings.

Write for circular No. G-542 giving full particulars of this issue.

ARTHUR REAL ESTATE COMPANY

St. Louis, Missouri

6%

\$500 FIRST MORTGAGE REAL ESTATE NOTES

Total Issue, \$1,000,000

Valuation of Real Estate Security, \$1,600,000

Denomination of Notes \$500

Notes are dated August 8th, 1919, and mature semi-annually on April 1st and October 1st, commencing October 1st, 1920, until October 1st, 1933, thus liquidating the entire indebtedness in fourteen years.

Payment of principal and interest is guaranteed by an irrevocable lease for a term of twenty years from October 1st, 1919, to the Stix, Baer & Fuller Dry Goods Company (Grand-Leader Department Store), for an amount sufficient to pay principal, interest and all fixed charges during the life of this issue.

SECURITY: The notes are secured by a first deed of trust on the fee-simple title to a lot of ground at the southeast corner of Seventh street and Lucas avenue, and a 99-year lease ending January 31st, 2010 on an adjoining lot of ground located at the northeast corner of Seventh street and Washington avenue in the City of St. Louis. The entire property fronting on Seventh street from Washington avenue to Lucas avenue will be improved with an 11-story, high-class department store building, now in course of erection.

The building is class "A," fire-proof construction, built of steel, brick and stone, thoroughly modern in every respect, equipped with an automatic sprinkler system throughout, ten passenger elevators, and every convenience known to modern construction.

Write for circular No. G-717 giving full particulars of this issue.

NATIONAL IMPROVEMENT COMPANY

Kansas City, Missouri

(A corporation controlled by the National Cloak and Suit Company of New York.)

6%

\$500 FIRST MORTGAGE REAL ESTATE NOTES

Total issue, \$1,200,000. Valuation of real estate security, \$2,500,000. Denomination of notes, \$500. Notes are dated July 1st, 1919, and mature semi-annually on July 1st and January 1st from July 1st, 1920, until July 1st, 1933, thus liquidating the entire indebtedness in fourteen years.

Payment of principal and interest is guaranteed by an irrevocable 20-year lease of the property of the National Cloak and Suit Company of New York, for an amount sufficient to pay principal, interest and all fixed charges during the life of this issue.

SECURITY: The notes are secured by a direct first mortgage on 21 1/2 acres in Kansas City, Missouri, fronting on Independence avenue, Hardesty street, Topping avenue, and the Kansas City Terminal Railway. The property is situated in the industrial and manufacturing district of Kansas City proper. The buildings illustrated above have just been erected on this property, costing in excess of \$2,200,000. Both buildings are of reinforced concrete, fire-proof construction, containing in the aggregate about 14 acres of floor space. The entire property is leased and occupied by the National Cloak and Suit Company of New York as its Western Branch.

DARTMOUTH HEAD URGES EDUCATION TO REMOVE UNREST

Dr. E. M. Hopkins Says Workman's Ignorance of What His Work Is For Is Greatest Curse in Industry.

Dr. Ernest Martin Hopkins, president of Dartmouth College, speaking at the Chamber of Commerce luncheon at Hotel Statler today, said that the one obvious solution for the present industrial unrest is a renewed interest and enthusiasm among laboring people and that this can be brought about only by changed methods, under which the laborer must be educated to know just what becomes of the thing he produces.

"One of the greatest curses of modern industrial plants," said Dr. Hopkins, "is the failure to educate the workmen as to what they are doing. During the war some of the zealous ones, and they were sincere, conceived the idea that the men in the industrial plants might be spurred to greater action and production by having speakers talk on patriotic subjects for an hour each week, to 'spread the eagle' as it were. And that was all very well. We needed some of those things, but I was a bit skeptical as to the permanent value of this campaign. And now I am certain of it."

"I received a letter from a leader of the I. W. W. who believed I was responsible for this introduction of speakers into the plants. In that letter he said: 'I punch a piece of metal 100 times every 60 seconds, 8 hours a day. No one has ever told me what becomes of that metal. I do not know whether it goes into work connected with the war or what becomes of it. Do you not think that a campaign of education, showing us the result of our work, would be vastly better than a temporary stimulation and subsequent lowering of production?' And there is the argument for education presented as briefly and forcibly as it can well be."

Condition Not Extraordinary.
Dr. Hopkins asserted the present industrial condition was not at all extraordinary, that a glance into history would show a similar condition following every war.

"From 1909 to 1914," he continued, "the net immigration to the United States from Europe was more than 4,000,000. From 1914 to 1920 it was less than 400,000, or a decrease of 90 per cent. That means the supply of labor, which keeps up production in this country, has shrunk 90 per cent in five years. Is it to be wondered that prices are high and that production is low?"

"A further factor lies in the great number of men who went during the war from jobs on which pure inertia might have kept them for the balance of their lives into other kinds of work and will never return to the old rut. In this way the ranks of labor were greatly depleted and there must be a new harvest of laborers before the ranks can be filled."

Commenting briefly on the conference which concluded here yesterday of business men interested in a suppression of radicalism, Dr. Hopkins said:

Minority Trying to Control.
"The evil of the present day lies in the attempt of a minority to gain control. Anybody who attempts to make the minority all powerful, whether that minority be capital or labor, must be forced back to a realization of the ever present truth that the Constitution of the United States is supreme."

"The relationship of men, one with the other," said he, "must be brought about by a slow and careful campaign of education and that campaign must be carried within our great industrial plants. Men must be made to see and feel that each of them is a part of the great scheme of Government and of life itself and that each has his part to play, and if he fails there is a cog missing somewhere in the great machine. The wheels of Government cannot successfully turn if there be a single flaw in the machinery. It is out part to carefully inspect the machine each day and each hour and to see to it that it is kept in good running order."

Opposed to Deportation of Reds.

In deporting the "reds" the Government, he said, had taken the very method the "reds" desired, one which was calculated to arouse sympathy for them and their cause. "The moment one produces an irritation," said he, "that moment trouble crops out and the quickest way to do away with the possibility of irritation is to allow the hard, common sense of the American people to act as the healing agent." He is confident that if the "reds" had been permitted to express their views a reactionary wave of disgust would have set in which would have resulted in greater damage to their cause than deportation could ever bring about. "We have made martyrs of people who would otherwise have become demagogues and charlatans," said he.

Dr. Hopkins has been president of Dartmouth College since 1916, when he was president of the New England Telephone Co. to take the position. He is an alumnus of Dartmouth and for nine years following his graduation in 1901 he was secretary of the college.

In St. Louis he plans to meet as many of the alumni of Dartmouth as possible and will remain here until the latter part of the week. He said the college now has an enrollment larger than that of either Yale or Princeton, and 55 per cent of the students are from states outside the

New England territory, many of them being from Middle Western states. There are about 1700 Dartmouth alumni in Missouri.

During the forenoon Dr. Hopkins visited several of the high schools, and tomorrow will visit both Washington and St. Louis universities.

HICKORY WAIST AND GARTERS FOR GIRLS AND BOYS

The Delight of Mothers Everywhere

The Hickory Waist for girls and boys is the very garment you always have wanted if your home is blessed with real, red blooded, robust youngsters. There's so much thoughtful care and painstaking effort put into this garment, that you can tell at a glance that it's a better article. The body is made of fine mercerized sateen—wears well and washes wonderfully. The sensible front breast strap holds the waist comfortably and securely. All buttons are genuine unbreakable bone. Protected pin tube attachment prevents the garter pin from bending or breaking. The waist fits perfectly.

The better stores usually show Hickory first

Whether you want a waist or a pair of garters—you'll find that the better stores usually show Hickory first. It is invariably the ideal of good merchants to give you the best your money can buy. Your dealer knows and your experience will prove, that Hickory products are the most satisfactory and most economical. They give real service.

You know these desirable Hickory Garter features

Of course the Hickory Waist can be bought with or without garters. If garters are wanted insist upon getting the genuine, guaranteed Hickory. The Hickory is the only children's garter made with the patented rubber cushion clasp, which saves stockings and darnings. The buckle is easily adjusted; the quality of the elastic and webbing is uniformly excellent.

You'll find them in the notions, boys' and infants' departments

Announcement

The return of the St. Louis-San Francisco Railway to its owners carries with it the definite obligation of public service.

This responsibility we accept. It will be our effort to make our service merit patronage.

Problems confront us that can be solved only by patience and a cordial understanding between transportation agencies and the public. This understanding we will seek to cultivate.

Transportation facilities have not kept pace with the remarkable growth of the Southwest. This condition was unavoidable, but can and will be remedied.

New equipment is necessary to handle the constantly increasing traffic, due to the industrial activity in the territory served by Frisco Lines. It has no equal. Already we have received 4500 new freight cars and 50 locomotives. Our duty to further increase our facilities is recognized.

The organization of this Company throughout is composed of tried and experienced men, long familiar with the problems of Frisco territory.

It will be our pleasure to serve the public.

NEW CONVENTION CALL URGED BY SHANNON

Kansas City Member of Democratic State Committee Sees Danger of Split in Party.

Joseph B. Shannon, former chairman of the Democratic State Committee and leader of one of the two factions controlling Democratic politics in Jackson County, when here yesterday, expressed the opinion that the interparty controversy over the league of nations and whether Senator Reed would go as a delegate to the Democratic national convention, threatened a very definite split in the party and that they might be two Democratic State conventions and contesting Missouri delegations at the national convention this year.

Shannon and Reed are members of opposing factions, Reed being aligned with the Pendergast element in Kansas City. Anti-Reed Democrats have been counting upon Shannon to aid them in a fight to prevent Reed from being selected as a district delegate from Kansas. His statements here yesterday indicated to Democrats who have been doubtful that he could be counted upon against Reed, that he is swinging over to those who are favoring a compromise which will permit Reed to go to the convention. In the past Shannon and Pendergast, though fighting each other much of the time, usually have gotten together at election time and divided the political spoils. It is generally expected that they would agree that one Jackson County delegate would be Reed and the other a Shannon man.

Call Declared Wonderful.

"We have a wonderful State Committee and it has issued a most wonderful call for a state convention," Shannon said. "See that as a result of this unusual and complicated call, an injunction suit has been filed by St. Louis Democrats to prevent the call from being put into effect, and that Chairman Neale has called a conference of political experts to straighten out the tangle."

"If they don't watch out there will be two state conventions in Missouri this year, and consequently contesting delegations to the national convention. It would be the easiest thing in the world to have a second convention."

"It seems to me that the State Committee, of which I am a member, should issue a new call for a state convention, and then when the convention meets all the members of the committee should resign and a new committee should be chosen. The present committee seems to have made an awful mess of things. The trouble with the committee is that it takes itself too seriously. I have never seen anything serious about a political committee except the fellows composing it."

"The party is sick and needs a rest. It can't stand much more, but of course if the State Committee wants to kill it let it keep on going the way it has for the past year."

May Extend Suit.

Campbell Cummings, one of the attorneys who filed the injunction suit, and who will represent the objectors to the State Committee call at a conference of members of the committee and other Democrats at the Planters Hotel tomorrow, said today that unless it was agreed that a new call to meet their objections would be issued, it was probable he would file an amended petition to include the State Committee as defendants in the suit in an effort to make the injunction operative throughout the State.

Cummings said he would insist not only that men vote with women and not the women separately, in ward and county conventions, but also that the provision for an equal number of men and women delegates in the State convention be rescinded.

"We shall insist that women come into politics as individuals entitled to the same consideration as individual men voters, no more and no less. If we cannot get from the conference tomorrow a pledge that the call shall be changed to meet this objection we will proceed with the injunction suit as we deem best," Cummings said.

Cummings said he would present his objections to the call to the conference in writing.

100 VERMONT TOWNS VOTE IN FAVOR OF LIQUOR LICENSE

By the Associated Press.
RUTLAND, Vt., March 3.—Incomplete returns from a majority of the 14 Vermont counties indicate that more than 100 of the State's 248 towns voted "yes" today on the liquor license question. The vote is without material effect as the preference indicated cannot supersede the prohibition laws.

BROOKLINE, Mass., March 3.—At the town meeting yesterday Brookline joined the many Massachusetts cities and towns which have reversed long standing no license policies on the liquor question, and voted for license, 1449 to 1093. It was the first time in 34 years this town, one of the largest and wealthiest in the State, has voted "yes." Brookline's population is 88,490.

\$57,000 LIFE INSURANCE LEFT BY W. S. M'CHESNEY JR.

William S. McChesney Jr., president of the Terminal Railroad Association, who died Jan. 23 at his home, 4406 McPherson avenue, left an estate consisting of personal property amounting to \$57,015.84, as shown by an inventory filed in the Probate Court. It includes life insurance totaling \$57,000.27 and cash, \$15.57.

He left the bulk of his estate to his widow and his two children. Mrs. McChesney claims the household effects under a bill of sale executed May 2, 1915, and also her husband's clothing.

TWO BLIND MEN SMASH GLASS IN AUTO DOOR

Their Heads Strike Machine After It Stops—Three Other Accidents Occur.

Five persons were injured in automobile accidents last night.

George Powers, 1400 Franklin avenue, reported two blind men had "walked into" his automobile while he and John Rodgers were driving north on Jefferson avenue at Russell avenue. He said he saw the men leave the sidewalk ahead of his machine and believing they would be struck stopped his machine. They walked against the side and their heads, he said, went through the glass of a side door. Both were cut

on the head, he said, but refused attention and proceeded on their way, refusing to give him their names.

Donald Darling, 7 years old, of 1525 Olive street, was struck by an automobile driven by Henry J. Smith, 5764 De Giverville avenue, at Sixteenth and Olive streets, at 4 p. m. He suffered scalp wounds and bruises.

Rose Katz, 14 years old, 5208A Page boulevard, stepped back toward the sidewalk while she was waiting in the street for a car at Union avenue and Delmar boulevard at 5 p. m. and walked in front of a truck of the Pierce Oil Corporation, eastbound in Delmar. She was knocked down, suffering scalp wounds, cuts and bruises.

Alexander Hoffman, 10 years old, of 3508 North Eleventh street, a newsboy, jumped from a Broadway car in front of 3721 North Broadway and was struck by an automobile driven by Vincent Conroy, 1117 Paul street, at 5 p. m. He suffered scalp wounds, cuts and bruises.

PRESIDENT OF BOARD OF COMMUNITY SCHOOL

Mrs. George C. Hitchcock

Plea for Trade Branches.

A resolution urging that Congress appropriate \$75,000 for the support of branch offices in St. Louis and other cities of the Bureau of Domestic and Foreign Commerce was adopted yesterday by the Executive Committee of the Manufacturers Association, at the Noonday Club. The appropriation for the bureau has been reduced from \$1,650,000 to \$490,000. The resolution declares the branches to be points of contact between the exporter and importer and most vital factors in the promotion of commerce.

LECTURES TO MOTHERS TO BEGIN TOMORROW

Dr. Veeder to Speak at Community School on How to Keep Children Well.

LECTURES are claiming the interest of many women during Lent, and a particularly interesting series will begin tomorrow at the Community School, De Mun and Wydown boulevard, when authorities will speak on "How to Keep Our Children Well." Dr. Borden S. Veeder will speak tomorrow at 3:30 o'clock "The Physical Life of the Child," and mothers will no doubt welcome the opportunity of hearing him and the other specialists who follow him in four more lectures.

Mrs. Archibald G. Douglas has charge of the tickets, which will be on sale at the door tomorrow. Mrs. James H. Wear and Mrs. Charles H. Merrill will be the ushers. Mrs. George C. Hitchcock is president of the Board of Directors of the school. Mrs. Warren Goldard is chairman, and other members of the board are: Mrs. Vincent Price, Mrs. F. B. Elmer, Mrs. Alanson C. Brown, Mrs. J. Lionberger Davis, Mrs. Philip Bond, Mrs. Archibald G. Douglas, Mrs. Hugh McKittrick Jones. The school may be reached in a 20 minutes' ride from Grand avenue by taking the Olive-University and then the City Limits car which passes the door.

The next lecture will be given on March 11 when Dr. Philip C. Jeans will speak on "Food and Nutrition."

Social Items

Mr. and Mrs. Owen Stander Tilton of 6843 Waterman avenue have sent out invitations for a dance which they will give on Saturday evening, March 6, at their home. The guests are invited to come in costume and the invitations which were in the shape of a girl's head wearing a masque read: "We are going to give a masque and plan just heaps of fun. Your presence is requested and we hope that you will come."

Mr. and Mrs. Harry Langenberg of 49 Westmoreland place, accompanied by Mr. and Mrs. George Tiffany of 11 Hortense place have departed for French Lick Springs to be gone 10 days.

Mrs. G. H. Walker of 12 Hortense place and her daughter, Miss Dorothy Walker, have departed for New York City where they will remain until April.

Mrs. C. R. D. Meier of Clayton and Kent roads, St. Louis County, has returned from a trip to the West Indies.

Mrs. Isaac W. Morton of 43 Portland place has as her guest her sister-in-law, Mrs. Oliver Filley of Boston.

Mrs. Randolph P. Titus of 5801 Enright avenue and her young son, who have been in the East for several weeks, are expected home Saturday.

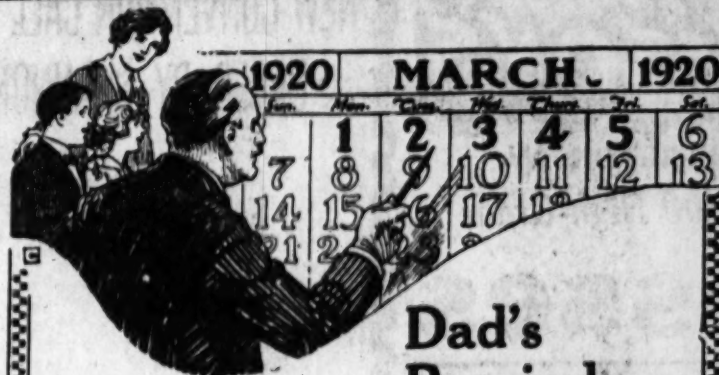

Mr. and Mrs. Charles Nagel of 44 Westmoreland place have as their guest their daughter, Mrs. Henry R. Putnam of Boston. Mrs. Putnam was Miss Edith Nagel.

Miss Phyllis Pank, who was the guest of her sister, Mrs. Harold H. Day of 700 Limit avenue, has returned to her home in Evanston, Ill.

A production of "Twelfth Night" will be presented in the theater of the New Community Center on Grand and Vista avenues Friday night and Saturday afternoon. The entire proceeds will be contributed to the upkeep of the center. Ruth Holden of Warrensburg, Mo., will assume the role of Malvolio in both casts, Margaret Claiborn of Sedalia, Mo., Olivia; Doris Darrach and Florence Gedney, Viola; Gladys Lessem of Cape Girardeau and Mae Green of 4111 Lindell boulevard, Feste. The Clowns: Orene Kirshman of Van Buren, Ark., and Ava Hudson of Webster Groves, Sir Toby Belch; Ruth Garrison of Van Buren, Ark., Sir Andrew Ague, check; Sara Loser of Sedalia, Fabian; Hazel Beare of 6621 Pershing avenue and Hazel Markert of East St. Louis, Sebastian; Margaret Barenberg of 4561 Wichita avenue, Orsino, and Valeria Silbohan, Maria. The young women are students of the Morse School of Expression and are under the direction of Harry R. McClain. They are donating their services to the Community Center. Their final dress rehearsal placed their critics so well that they have been invited to repeat the performances for the East St. Louis High School in their auditorium Friday night, March 12.

Mrs. N. A. McMillan's afternoon tea and reception in honor of Miss Frances Starr, held at the McMillan residence on Forsyth boulevard yesterday, was attended by a number of women interested in the success of the approaching Board Walk Carnival at the Coliseum. Miss Starr and her sister, Mrs. J. H. Gledall, received with Mrs. McMillan, and Mrs. George Gellhorn, Mrs. James McCluney and Mrs. J. Scott Porter floated. At the tea tables were Mrs. Dan Jones and Misses Erwin Hayward and Elizabeth Benoit. Upwards of one hundred women called during the afternoon.

Loose Ring and \$400 Certificate. Mrs. John Boogher of 6300 Waterman avenue, reported to the police yesterday she had lost a handbag containing a diamond ring valued at \$500 and four Government certificates of deposit for \$100 each, near Tenth and Olive streets.

Perfume Your Home with Incense

There are few things so characteristic of the fascination and mystery of the beauty-loving lands beyond the Pacific, or that so thoroughly satisfy the aesthetic taste and imagination, as Vantine's Temple Incense. Its dreamy, soothing fragrance brings to mind the rosy dawns, the brilliant sunlight, the purple dawns of the Orient—the enchantment of strange Far Eastern countries—the subtle, languorous sweetness of tropical gardens and of blossom laden breezes blown from palm-fringed islands set in turquoise seas.

Vantine's Temple Incense, Oriental perfumes and Toilette requisites are sold by best shops everywhere. Should your dealer not have them, write us and we shall see that you are supplied. Liberal sample mailed postpaid upon request. Address Dept. 1, S.P.

Ever hear of a wash-man?

Of course not! Ever since men have worn clothes the burden of washing them has fallen on women.

Why? Because no man would undertake the nerve-and-muscle-racking job.

Now, at last, a few men have atoned for the thoughtlessness of all the men of the past. They have made possible for the women a washday that is a real pleasure; no drudgery, no fatigue—no aching backs or parboiled hands. They have designed and built

BlueBird ELECTRIC CLOTHES WASHER

With BlueBird, washday is over in an hour. The clothes have been perfectly cleansed, and because they have been handled so carefully in the large, smooth, copper tub, they will last five times longer than if they had been rubbed on a board. The cost of this washing in money is two cents an hour for electric current; in human energy—the turning of a switch.

See BlueBird do your washing FREE

Prepare for your next washday. Call or telephone to us immediately and arrange for a free demonstration in your home. There will be no expense, no obligation, nothing to sign. But after one BlueBird washday, you will never be satisfied with any other kind. Then you will be glad to know that you can

Buy BlueBird for \$7 Down

and complete the payments in convenient monthly sums.

No Matter How
Bad the Complexion

Stuart's Calcium Wafers Produce the Wonderful Calcium Sulphate That Gives the Skin What it Requires to Prevent Pimples, Blackheads and Such Skin Disorders.

The pink freshness of a natural complexion is greatly admired these days because of the too general use of rouge, powders, creams and other make-ups. It goes without saying that a natural, beautiful complexion is health beneath it and with health is vivacity and leadership in all other activities. No matter how bright and active one may be, a face covered with pimples is a handicap. Never before was the complexion of healthful appearance so much in evidence. Get rid of pimples, blackheads, roughness, redness, itching rash by using Stuart's Calcium Wafers. They contain calcium sulphide, considered by scientists absolutely essential to clear, healthy skin.

If you are discouraged you can cheer up. No matter how bad your skin may be from such conditions, Stuart's Calcium Wafers ought to work wonders with it. And then adhere to blackheads, pimples, boils, and a muddy, sallow complexion. So don't be blue, don't despair, get a 50-cent box of Stuart's Calcium Wafers today at any drug store in the United States, and soon you may have as beautiful a complexion as you ever wished for.

FAMOUS OLD RECIPE
FOR COUGH SYRUP

Ready and cheaply made at home, but it beats them all for quick results. Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it really has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or cocoa syrup instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and seals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, whooping cough, croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membrane.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't expect anything else. Guaranteed to be absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Save your self hours of discomfort
Resinol

What you want for your skin trouble—Resinol to stop the itching and burning—Resinol to heal the eruption. Resinol makes it worse, besides being embarrassing and dangerous. The smooth, gentle ingredients of RESINOL OINTMENT often overcome the trouble promptly, even if it is severe and long-established. Bathing affected part first with RESINOL SOAP hastens the benefit at result. Resinol products at all druggists.

ADVERTISEMENT.

Hideous Freckles
Instantly Removed

Many instances after all other methods fail. Freckles with their obnoxious brown color give a yellowish cast to even the youthful complexion. Get rid of them or prevent their reappearance by using Deriville, a simple toilet preparation which is guaranteed absolutely harmless. It will not stimulate the pores of the face, and as short-cuts to the hands and arms will cause a delight to those whose skin contains blemishes of any description. Resinol is sold in this city at all counters of up-to-date drug or department stores under the guarantee that you don't like it they give you back your money. Get it today from Wolff, Judge & Doloh, Johnson Bros. and the Enclosure Stores.

SECOND ANTI-RADICAL
MEETING NEXT WEEK

Business Men From 12 States Expected to Effect Organization at New York Monday.

The anti-radical conference of business men from 12 states concluded a two-day session at the Hotel Statler yesterday afternoon without having chosen a name for their organization, but with plans outlined for a permanent organization to be formed at the second conference, which will be held in New York next Monday and Tuesday and at which it is expected there will be present representatives from nearly all of the states.

Several of the delegates here favored immediate organization, but the counsel of those who believed action should be deferred until the New York meeting prevailed. Frank C. Moss of Kansas City is chairman of the Organization Committee.

Harry M. Haldeman of Los Angeles, one of the organizers of the movement, said yesterday that a central conference will be held in Chicago within the next month, and he is of the opinion that the formation of the national body will be deferred until that time.

Labor's Activity Assailed.
The activity of labor unions in governmental affairs was strongly emphasized at the closing sessions and virtually every speaker sounded a note of warning against the growing influence of the American Federation of Labor in a political way.

Alvin Johnson of Omaha said the business men had been openly challenged by organized labor when it was announced that no man should be elected to Congress who was not in sympathy with their cause. "That challenge must be met," said he. Labor proposes to go to the ballot box, a lawful procedure, and labor will succeed in carrying out its purposes of taking charge of the Government unless the business men of this country speedily awaken."

C. of C. Unrepresented.
One of the speakers yesterday inquired whether the St. Louis Chamber of Commerce had given its approval to the movement and was answered that the Chamber of Commerce had signed the call but was unrepresented at the meeting.

The Associated Industries of Missouri were represented by Elmer Donnell, R. H. Switzler, general manager of the St. Louis Refrigerating and Cold Storage Co., was also present at all sessions.

It was announced that George Wilcox, Chicago, editor of "The Commonwealth," and a member of the California State Senate, is to remain here several days to address noonday meetings at industrial plants in and near the city.

THIRD DISTRICT REPUBLICAN
DELEGATES FAVOR BOV. LOWDEN

Morse Controls Convention Over Progressive Elements, Hyde and Spencer Indorsed.

Special to the Post-Dispatch.
EXCELSIOR SPRINGS, Mo., March 3.—E. L. (Lay) Morse, Republican "boss" in the Third Congressional District, whose control was challenged by progressive elements of the party in the district convention yesterday because of the poor showing made by John E. Frost, the Morse candidate, in the recent special Congressional election, had little difficulty in maintaining his political hold.

Morse's selections for delegates to the Republican National Convention were chosen and are favorable to Gov. Lowden of Illinois, as are the delegates in other districts where the organization has controlled the conventions. The convention voted against instructions for Lowden. The delegates, E. F. DeHart, of Cameron, and E. R. Lindley, of Stanberry, sent a telegram to Lowden pledging their support to him.

Former Progressives sought the election of Wood, a delegate, the names of Mark Pettie of Caldwell County and Bert Layson of Harrison County being presented. Morse's candidates received 40 votes to 23 for the Wood delegates. Among the candidates indorsed was Arthur M. Hyde for Governor, Senator Spencer for re-nomination, and Jacob L. Bahler for national committeeman.

M'ALLISTER BEFORE SUPREME
COURT TO OPPOSE GAME LAW

Special to the Post-Dispatch.
WASHINGTON, March 3.—Attorney-General Frank McAllister of Missouri appeared before the United States Supreme Court yesterday to present the contention of the State of Missouri that the Federal Government has no right to enforce the game laws of the migratory game law in the State. The case is before the court on appeal by Attorney-General McAllister from a decision of Judge Van Valkenburg at Kansas City sustaining the law which was enacted by the legislature of Missouri.

WOMAN FINED FOR INTOXICATION

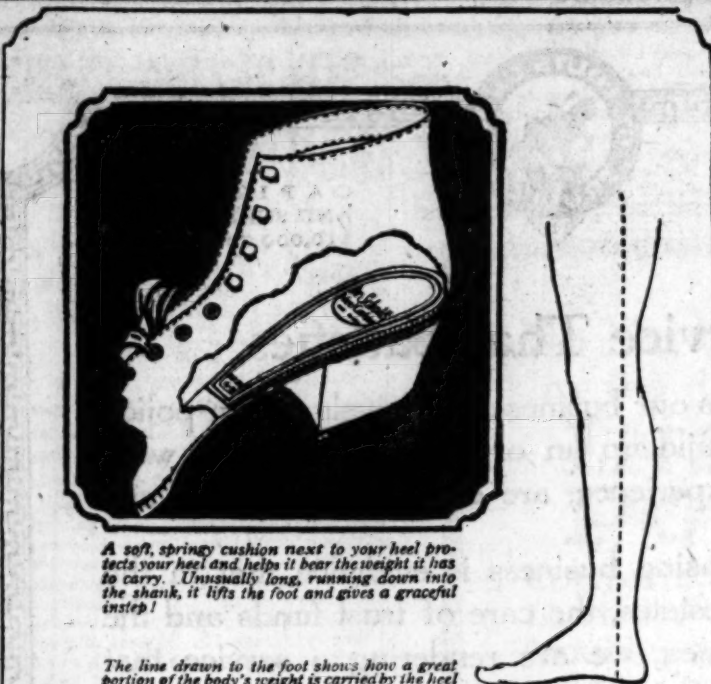

Two women were in police court today on charges of intoxication. One was fined \$5 and costs, which she paid. Judge Mix asked what she had been drinking.

"Wine," she replied.

"Have you any more of it?" the court asked.

"No, I got this out in St. Louis County and was afraid to take a chance with it for a long time and now I have had enough of it," she replied.

The other case was continued.

A soft, springy cushion next to your heel protects your heel and helps it bear the weight it has to carry. Unusually long, running down into the shoe, it lifts the foot and gives a graceful instep!

The line drawn to the foot shows how a great portion of the body's weight is carried by the heel

Give your tender heels
soft, springy cushions

for your heels carry most of your weight!

If a man weighs 150 pounds, 100 pounds of it is carried by his heels—only 50 pounds of it by the balls of his feet. The muscular heel cushions that carry this weight often become sore and tender.

You can protect your heels and your whole nervous system from the heavy jar of walking on hard surfaces by giving the heels an extra cushion! Wear Dr. Scholl's Heel Cushions inside your shoes! Made of the finest russet leather and a special sponge rubber with perforations that hold its springiness!

Get these shock absorbers for men and women from your shoe dealer today—40c a pair. You can walk for miles without tiring or getting your heels sore!

United States Marine Corps School Has "Earn While You Learn" Courses

Hereafter young men enlisting in the Marine Corps will not only learn to be soldiers, but, if they wish, they may go regularly to school. After one, two, three or more years the Marine may be graduated as an expert automobile mechanic, chauffeur, plumber, or what not. Not only that, but the United States Government puts at his disposal its tremendous influence with employers in satisfactory placing the U. S. Marine Corps institute graduate in a well-paying job.

The young man who is facing the hard problem of making a living while working his way through high school, college or trade school should welcome the opportunity afforded by the Marine Corps Institute. By this plan he is not only enabled to gain the education he desires, but at the same time—

Lead a healthful, body-building outdoor life, receive free board, clothing, lodging and medical attendance—thus leaving his pay for "pocket money" or for a snug savings account.

To the average "red-blooded" young American, the Marine Corps, with its adventurous, carefree life, and its opportunity for travel by land and sea, at home and abroad, has always proved particularly alluring. When to these are added a chance of a good education—

The Marine Institute
The U. S. Marine Institute is already well under way at the Marine post at Quantico, Virginia.

Hundreds of young men are enrolled in courses that range from reading, writing and simple arithmetic to such subjects as higher mathematics and journalism.

If a man comes into the Marine Corps hardly able to sign his name, he can gain a grammar school education and continue to learn to the limit of his ability and the length of his enlistment. Among the courses open to the Marine are elementary and advanced English, mathematics in practically all its branches, French, Spanish, stenography and clerical work, automobile mechanics, horsemanship and care of horses in sickness and

health, forestry, concrete and brick masonry, carpentry, electrical mechanics, plumbing, blacksmithing, house painting, band music, drafting, journalism, cooking and baking, etc., etc.

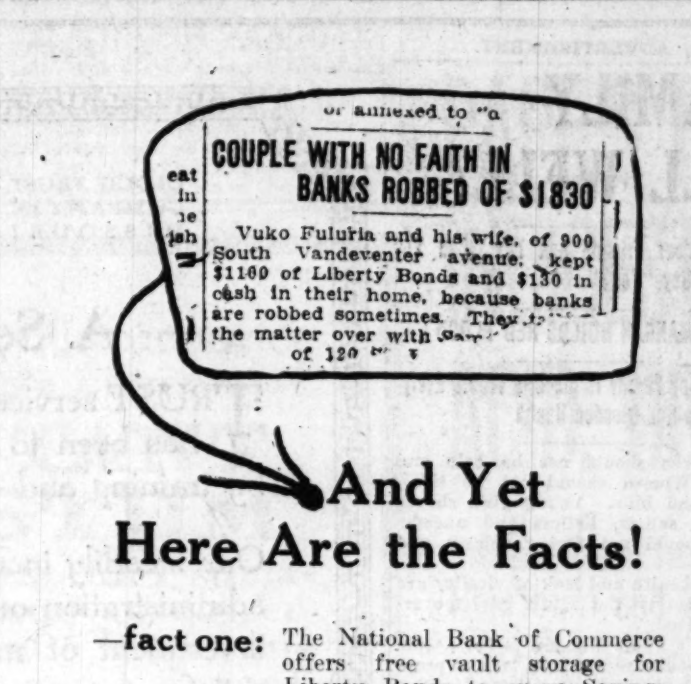

The instructors are not only competent teachers, but, as well as practical men, and are selected for their proficiency regardless of their rank in the Marine Corps. For example, the teacher of Spanish is a corporal, who is a law graduate of a foreign university, and a former public school teacher. Many of the trade schools are in charge of instructors who are graduates of Annapolis, Massachusetts Tech. Stevens Institute, Colorado School of Mines, and other leading institutions. Others have received their training in such great industrial corporations as the General Electric Company, the Standard Oil Company, the Baldwin Locomotive Works, and so on.

All students enrolled in the Marine Institute courses receive their instruction on an average of three hours for five afternoons each week, all purely military training being confined to the morning hours. The evenings may be devoted to study, reading, or the various camp recreations, such as the free movie shows or the pool tables.

We hear a great deal about "college life," but it is extremely doubtful if any of our institutions of learning afford more opportunity for pleasant companionship with real good fellows than does the Marine Corps. For this branch of service attracts the sort of a man who has the makings of a "good fellow." Few colleges can offer any better facilities for baseball, football, boxing, swimming and other athletic sports—all under the direction of competent trainers and coaches. And no school, unless it is a military institution of the first rank, can approach the Marine Corps in giving a man that self-reliance, alertness and qualities of leadership which military training affords.

If you are even slightly interested, don't hesitate to call at a Marine Recruiting Office. You will not be urged to enlist, but you will be told the truth, and nothing but the truth, about the service. Send for booklet.

In The Grip Of
A Man's Hand—

You Find Strength or Weakness—
What Does Your Grip Show?

Have you the firm, forceful power of a man whose blood is rich in iron—the kind that inspires confidence and wins success—or have you the feeble, hesitating clasp of a weakling, whose blood needs iron? Nuxated Iron builds strong, keen, red-blooded men and women.

If you are not strong or well, you owe it to yourself to start taking Nuxated Iron today and watch its strengthening effect. In two weeks' time see for yourself what sort of a change has taken place in the grip of your hand and the amount of strength and endurance you possess.

All students enrolled in the Marine Institute courses receive their instruction on an average of three hours for five afternoons each week, all purely military training being confined to the morning hours. The evenings may be devoted to study, reading, or the various camp recreations, such as the free movie shows or the pool tables.

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia). 50c and 60c jars; hospital size \$2.50.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels. Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain. Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.

ADVERTISEMENT

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Mulifed coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

STOP ITCHING SKIN

Apply Zemo, the Clean, Antiseptic Liquid. Gives Prompt Relief.

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy. The E. W. Rose Co., Cleveland, O.

U. J. CARBURETORS ARE PERFECT

WITNESS CAUSES ROW IN RELIEF HEARING

Criticizes Statements of Legion Chief—Says "Alleged Economies of Congress" Are a Crime.

By the Associated Press. WASHINGTON, March 3.—Another row occurred today at hearings before the House Ways and Means Committee on soldier relief measures. It came when Edward H. Hale, representing veterans of foreign wars, told the committee that statements made yesterday by Franklin D. Oiler, commander of the American Legion, were "erroneous and should be contradicted." A storm of protest resulted, but Chairman Fordney restored quiet by warning that unless order could be maintained "we will quit these hearings."

Representative Treadway, Republican, Massachusetts, said the committee should not permit criticism of the American Legion, adding that "evident rivalry exists between various associations."

"Criticisms must be permitted, if we get anywhere," interjected Representative Garner, Democrat, Texas.

Criticism Is Forbidden. After five minutes of wrangling among members, during which several stated to leave, Chairman Fordney ruled that witnesses should not criticize other organizations.

Hale urged passage of a bill authorizing relief to discharged service men at the rate of \$30 a month instead of \$50 with an additional grant of \$100 to those who served overseas, and favored passage of the Morgan bill, to give service men the option of selecting homesteads.

"How could the money be raised by this bonus?" asked Representative Kitchen, Democrat, North Carolina. "There is a public debt of \$25,000,000,000 now."

"Our plan," said Hale, "would be to tax all incomes above \$50,000 at the rate of 2 per cent, graduating that until 7 per cent would be charged on incomes above \$1,000,000. This would provide \$200,000,000, according to the Internal Revenue Bureau."

Kitchen Agrees With Witness. "Some of the alleged economies are a crime," the witness said, whereupon Kitchen remarked that "the economies of this Republican Congress surely is a crime."

Hale said "If appreciation and nothing more" had been extended to discharged soldiers.

"These men," he declared, "have been turned back to civilian life with 60 pieces of silver and they have been brought face to face with the ingratitude of the republic. The only wonder is that they have stood so long the apathetic attitude of Congress."

Members of Congress received back pay when they were discharged from the army and returned to the House, he said, adding that others were equally as deserving as ex-soldier Congressmen.

GOLTRA ENGAGES ROOMS FOR MISSOURI CONVENTION DELEGATES

National Committeeman, Home From San Francisco, Also Plans to Obtain Special Train. Edward F. Goltra, Democratic National Committeeman from Missouri, announced on his return last night from a trip to San Francisco to arrange accommodations for the Missouri delegation to the Democratic national convention, that he had engaged the second and third floors of the Plaza Hotel, and that they provided ample accommodations for the 35 delegates from Missouri and members of the State Committee who would attend the convention.

Goltra also has under consideration plans for a special train from St. Louis to San Francisco to accommodate nearly all the Missourians who will go to the convention. He said he expected to work out a scenic tour which would enable visits to the points of the greatest interest in the West.

LOWDEN DELEGATES CHOSE

14th Missouri District Republicans Favor Illinoisan. Special to the Post-Dispatch. WEST PLAINS, Mo., March 3.—Lowden delegates to the Republican National Convention were chosen here yesterday at the Fourteenth District Republican Convention. While no instructions were given a resolution was adopted to the effect that sentiment in the district at this time favors the nomination of Lowden.

The delegates chosen were Almon Ing of Poplar Bluff and John C. Hartin of Gainesville, and the alternates, Mrs. James A. Finch of New Madrid and Mrs. Elizabeth Almon of Galena. Resolutions endorsed Senator Spencer, Congressman Hays, Auditor Hackmann, Superintendent of Schools Baker and Chairman Cole of the State Committee, and Jacob L. Bahler for re-election as national committeeman.

FIVE YEARS FOR STEALING \$10

Charles Fuglelin, 32, Spruce street, was found guilty by a jury in Judge Taylor's court yesterday of a charge of robbery in the first degree and was sentenced to five years in the penitentiary. He was charged with holding up Edward Goodwin of the St. Clair Hotel, Twelfth and Market streets, Feb. 6. They met in a saloon, it was charged and Fuglelin followed Goodwin out and robbed him of \$10. Philip Moore, 11 South Tenth street, testified that he saw the holdup and identified Fuglelin.

FAMILY ALL WELL?

When Your Friends Ask That, Can You Always Say "Yes?"

PEPTO-MANGAN BUILDS RED BLOOD

The Happy Family Is the One Where Everybody Has Red-Blooded Health

Children should not be pale and wan. Women should not be tired, weak and blue. Young girls should not be sallow, listless and anemic. Men should not feel run-down and poorly.

Poor health and lack of vitality are often merely the result of impoverished blood.

Gude's Pepto-Mangan is for people whose bodies suffer from lack of proper blood nourishment. Pepto-Mangan enriches the blood and increases the number of healthy red blood cells, which are so necessary to carry the proper nourishment, vigor and strength to every part of the body.

It contains the very properties that are so sorely needed to build up thin, watery blood. Physicians call it the Red Blood Builder.

For your convenience Pepto-Mangan is prepared in two forms, liquid and tablet. Both contain exactly the same medicinal value.

Insist on the genuine Pepto-Mangan. To be sure you are buying the genuine Pepto-Mangan, ask your druggist for "Gude's." And be sure the name "Gude's" is on the package.

Do you sing in your bath?

Have you that feeling in the morning of being born again? This is a joy accorded only to perfect health. Racing blood and high spirits are two results of exercise, regular living and regular bowel evacuations.

By an entirely new principle Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in sealed bottles only bearing Nujol trade mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet, "Thirty Feet of Danger."

A New Method of Treating an Old Complaint

ADVERTISEMENT

TURPO Helps in Flu Prevention

One of the successful preventives used during the epidemic last year was Turpo, which is a combination of the old-time remedies of turpentine, menthol and camphor, in ointment form. Many physicians use and recommend Turpo.

Snuff a little Turpo up the nostrils several times a day as a preventive.

External applications will help relieve the congestion which is caused by influenza. Rub Turpo into the chest, throat, under the arms and between the shoulders. This stimulates the skin, attracting the blood to the surface and thus aids in reducing the congestion within. Buy a jar of Turpo of your druggist while he has a supply on hand.

Wards off sickness by keeping the kidneys active, the Liver Healthy and System Clean. Best for over 40 Years. Mild, Safe, Sure. Sold By All Druggists

DOCTORS FIND REMEDY FOR COLDS AND FLU

Calotabs, the New Nauseless Calomel Tablets, Cut Short Colds and May Prevent Flu By Keeping Liver Active.

Physicians have learned from experience, during the epidemic of influenza, that one of the most important factors in the prevention of flu and pneumonia is to keep the liver active so that the digestive organs may be in perfect working order and the system thereby enabled to throw off colds, check sore throats, and resist serious complications. For this purpose they have found that the new, nausealess calomel tablets called Calotabs, are far more effective even than the old style calomel, which was formerly the universal favorite, as Calotabs do not weaken the patient, nor interfere with the appetite and digestion.

At the first sign of a cold or sore throat, doctors recommend one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, nor the slightest interference with your diet, pleasure, or work. Next morning you wake up feeling fine, your liver is active, and your appetite is keen for a good breakfast.

For your protection Calotabs are sold only in original sealed packages, price 10c and guarantee Calotabs. Your money back if you are not delighted with them.

POSLAM DOES SHORTEN TIME TO HEAL ECZEMA

When Eczema burns, itches, disfigures, Poslam instantly soothes the angry skin, splendidly exerts its healing power, not only to make the disease more endurable, but to cause it to grow less and less each day. So effective is Poslam that a little of it will cover a large surface. It is its QUALITY, not the quantity of it, that does the work. You do not have to wait in uncertainty for indications of improvement. It soon SHOWS. For free sample write to Emergency Laboratories, 243 West 47th St., New York City.

HOUSE VOTES TO KEEP TRADE ATTACHES

\$165,000 Voted for Service—
\$100,000 to Promote Trade in South and Central America.

By the Associated Press.
WASHINGTON, March 3.—By a vote of 210 to 39 the House today refused to stand by the action of the subcommittee on appropriations in eliminating from the legislative appropriation bill provision for continuing the Department of Commerce foreign trade attaché service. Representative Ellison, Democrat, Mississippi, took care of the committee lapse by offering an amendment providing for expenditure of \$165,000 for the service. It was ruled out on a point of order, but the House overruled the decision of the chair and later adopted the amendment.

The House also voted to increase from \$175,000 to \$325,000 the appropriation for employing trade specialists to make investigations abroad and for publication of the reports of consular agents. Without debate the House then approved an appropriation of \$100,000 for promoting trade with South and Central American countries.

National commercial interests, as represented in the Chamber of Commerce of the United States and other business organizations, have been particularly active in their efforts to have appropriation for the bureau of foreign and domestic commerce restored.

THREE INDICTED IN CHARGE OF SHOOTING POLICE CHIEF

Robbery of Jewelry Store Also Charged Against Trio—Two of Them in Jail.

Indictments charging assault to kill and robbery were returned yesterday against Joseph Henry, 1813 North Tenth street; Armin A. Ellerbrake, 1510 Destrehan street, and Henry Carr, 1423A Bremen avenue, in connection with the attempt to hold up H. H. Gerhardt's jewelry store, 3324 Olive street, Oct. 31 last and the subsequent shooting of Police Chief O'Brien when he was trying to capture two of the robbers.

Carr escaped and has never been caught. Henry and Ellerbrake made confessions in which they admitted taking part in the jewelry store robbery, but denied shooting Chief O'Brien. Henry in his confession said the shot was fired by Carr.

Henry also has admitted in an affidavit that he held up a young woman cashier in the office of the Hannibal Ice and Fuel Co., Grand avenue and Hebert street, Dec. 8 last. On the cashier's identification, William Crowe was convicted of that crime and sentenced to serve five years. An effort is being made to have this sentence set aside.

ENGLAND AND FRANCE CHALLENGE U. S. FOR BALLOON TROPHY

Belgium Also Will Compete for James Gordon Bennett Prize When Race Is Held.

By the Associated Press.
NEW YORK, March 3.—Challenges for the international balloon trophy now held by the Aero Club of America were received yesterday

Easy to Have Clear, Soft Skin With Girlish Blush

Better than cosmetics for keeping the skin satiny soft, youthful and beautiful, is a simple tartaric mixture which any woman can prepare and apply in a jiffy. Almost immediately after spreading this over the face there is a pleasant, soothing sensation, due to increased capillary circulation and the beneficial influence upon the tiny facial nerves. The face becomes smooth, firm and fresh as a schoolgirl's. Cheeks and lips acquire a natural color not to be compared with a rouged effect. The eyes become clearer and more lustrous. Seems almost too good to be true, but the actual experience quickly removes all doubt. All one needs to do is to procure an original package of powdered tartaric from the druggist, mix a spoonful of this with a little lemon juice and apply with the fingers. This harmless emulsion quickly dries into a restful face mask. It is easily washed off (in about a half hour), leaving the face wonderfully refreshed and rejuvenated, with a healthy glow.

BOB WHITE The National Standard of BIG VALUE toilet paper. High Quality Sanitary and VERY Economical. **ASK for BOB WHITE**

from the Aero Club of France, which enters three teams, and the Royal Aero Club of England, which has one entry. Three teams will be entered by the United States. Belgium has entered one team and several other countries are expected to compete when the contest is held.

The trophy has not been contested for since 1913, when it was won by the Aero Club of America. American teams have won four out of the eight contests in which they were entered. The trophy was donated by the late James Gordon Bennett.

No Nerve Disturbance in the table beverage—INSTANT POSTUM

Contentment and satisfaction come as coffee troubles vanish, when one uses this pure cereal drink in place of tea or coffee. "There's a Reason"

... and at three historic banquets

A fact:

Within a single week last fall, great civic dinners were tendered at the Waldorf-Astoria to General Pershing, to Herbert Hoover and to Cardinal Mercier. And at all three of these famous banquets, the only cigarette served by the hosts was Fatima.

Ligarette by the name of

FATIMA

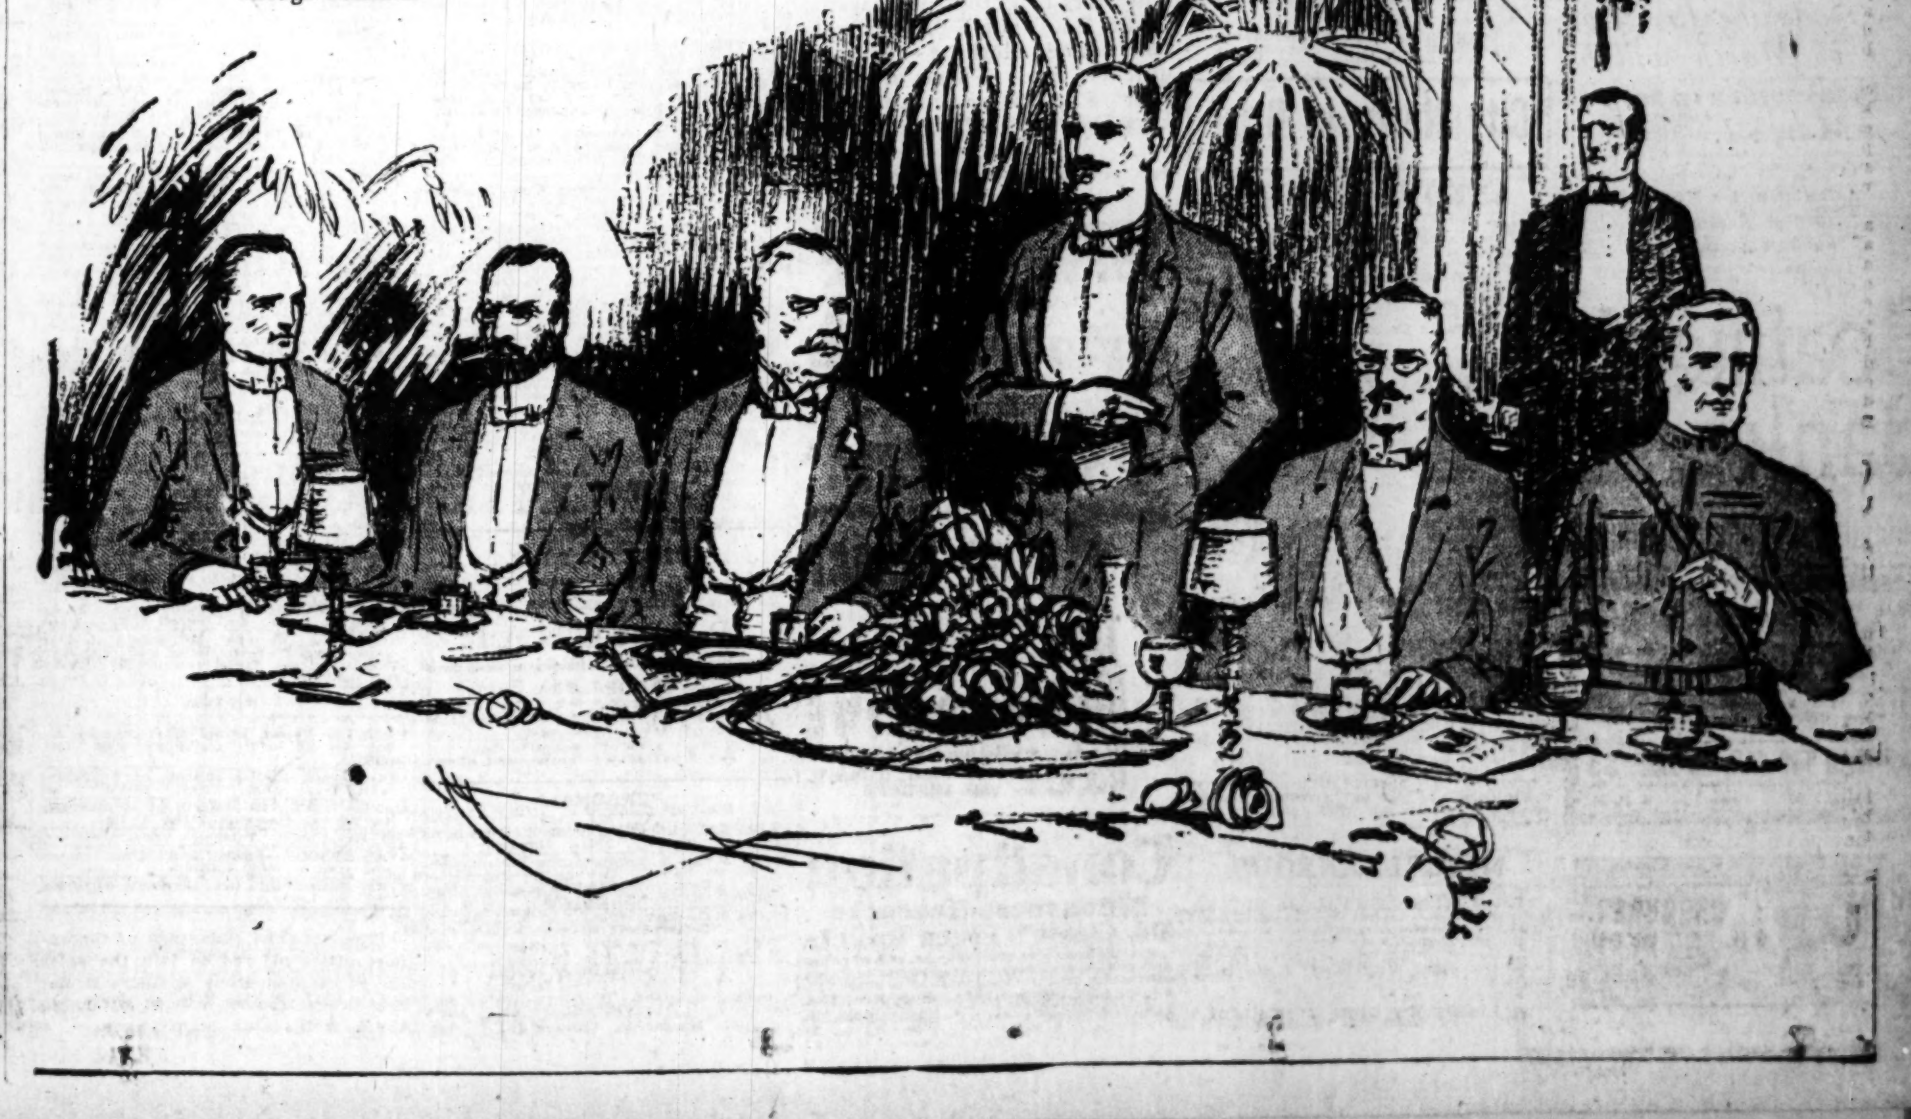

A Sensible Cigarette

"Just Enough Turkish"

Facts like these make Fatima's place among cigarettes unique. A few years ago, the "proper" thing on such state occasions would have been an expensive, fancy-boxed, straight Turkish cigarette.

Today, things are different.

Men base their choice on taste rather than price. That Fatima should be so clearly the choice of men who can afford anything they like, shows that most smokers really prefer—not too much Turkish tobacco in their cigarettes nor too little—but "just enough Turkish."

PAPE'S DIAPEPSIN FOR INDIGESTION OR SOUR, ACID, UPSET STOMACH

Instant Relief from Pain, Sourness, Gases, Acidity, Heartburn and Dyspepsia—No Waiting! It's Fine!

Stomach acidity causes indigestion, food souring, gas, distress! Wonder what upset your stomach? Well, don't bother! The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion pain, the sourness, heartburn and belching or gases, due to acidity, vanish—truly wonderful! Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a sour stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diapepsin now! Don't stay miserable! Try to regulate your stomach so you can eat favorite foods without causing distress. The cost is so little. The benefits so great. You, too, will be a Diapepsin enthusiast afterwards.

ORION

"Yes, Madam, you did just right when you used ORION at the first sign of your cold. You should always have it handy."

Thousands of doctors have given the same endorsement for ORION as first aid for treating colds, coughs, croup, influenza and pneumonia. It is also good for headaches.

Inhalant the fumes, rub on freely, or insert in the nose. All three treatments are effective.

Sold in three sizes. Trial, 10c. Family, 50c. Hospital, \$1.25.

CARDEPT
WINTER PRICES FOR
OUR SPRING CUSTOMERS

If you expect to purchase a car this Spring and buy it now you can save about two to five hundred dollars and get a much better choice. Cars will be scarce this Spring—they will be higher in price. Our stock right now is large and our low Winter prices are in force for a few weeks yet. We will store your car free till you want to use it. Why not come in, talk it over with our used car manager and let him tell you more in detail?

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wreth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

How About Your Awnings?

NOW IS THE TIME TO LOOK INTO THIS QUESTION. We have had 25 years' experience in St. Louis and guarantee satisfaction. Lowest prices consistent with good service.

The road to progress and to independence leads through Post-Dispatch WANTs, for many who have been wise enough to take advantage of them.

87 DRIVERS OF UNLICENSED AUTOS PAY \$3 COSTS EACH

They Present Receipts Showing That They Obtained Licenses After Their Arrests Yesterday.

Eighty-seven persons paid \$3 costs each in Police Court today for not having city or State license tags on their automobiles when they were arrested yesterday. They produced receipts showing that they had obtained the necessary licenses since their arrest.

There were 114 such cases in all. Twenty-seven were dismissed when defendants proved they had obtained licenses but had failed to place them on their automobiles or trucks.

Mrs. Madeline Preston of 5540 Pershing avenue, was on the docket of Judge Ittner's court. Her case was not called. When Judge Ittner was asked about it he said the case must have been nolle prossed. When Associate City Counsellor Kersting, in charge of the Court, was asked about it, he said the case had been nolle prossed. In answer to further questions he said he was too busy to talk about it. Attaches of the Court said that an attorney representing Mrs. Preston was in court early in the day.

Mrs. Mary J. Willis of 4295 Olive street paid \$3 costs in Judge Mix's court.

One negro defendant produced an automobile license receipt made out to "William F. Smith," and was permitted to depart on payment of \$3 costs. Another negro produced a receipt made out to "William F. Smith," paid his \$3 and departed. When a third negro presented a receipt made out to "William F. Smith," Judge Ittner called a halt. He ordered the third negro held until an investigation could be made.

Judge Mix fined Huston Duke, Jesse Cunningham, Paul Lorenz and George W. Moncey \$25 each by default. Others who had obtained licenses since yesterday were permitted to pay \$3 costs. Jake Pettrick was an exception. He arrived late. He was fined \$2 and costs and the fine was not remitted.

Seventeen arrests were made up to 11 a. m. today for failure to have vehicle licenses. Sixteen of the vehicles were automobiles and the other was a wagon.

ALLEGED VIOLATORS OF HORSE MEAT ORDINANCE DISCHARGED

Judge Miller of Court of Criminal Correction Dismisses Four Cases After Hearing Evidence.

Four cases of alleged violations of the ordinance against selling horse meat, without indicating that it is horse meat, were dismissed by Judge Miller in the Court of Criminal Correction today.

Henry Bockstruck of 2524 Montgomery street showed to the Court's satisfaction that he was not a vendor of meat, but ran a slaughter house, and butchered horses when they were taken to him. The other defendants were Felix Wiener of 1143 Union boulevard, Charles Will of 7827 Vermont avenue, and David Lowry of 6825 Vermont avenue. In their cases it was shown that they had not been furnished with a piece of the alleged horse meat.

The ordinance requires that a piece of the meat shall be given to the dealer, a piece preserved as evidence and another piece sent to the State experiment station at Columbia.

Bill Incorrectly Described.

In an account of the appointment by various organizations of representatives on the committee which will supervise the expenditure of the bond issue money, the Post-Dispatch last Wednesday printed the statement that the Building Trades Council would take no action in the matter until assured of the passage of a municipal contract labor bill now pending before the Board of Aldermen. This bill, which merely relates to the payment of prevailing wage scale to workmen employed on such jobs, was incorrectly described in the article as "providing that none but union labor shall be employed on municipal contract work."

Keep Your Skin Clear By Using Cuticura

Mother Falls Unconscious
"My mother, who is 69 years old, has been troubled with her liver for 35 years. Doctors said she had gall stones. Several times she fell unconscious because of these attacks. Recently, however, I noticed an advertisement of Moxon's Wonderful Remedy. I bought a bottle, which did her a great amount of good. She continued the treatment and has felt entirely well since." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will relieve you of all these troubles. Write for free literature to Moxon's Wonderful Remedy, 1000 N. Dearborn St., Chicago, Ill.

THE POST-DISPATCH PLAT-FORM

I know that my retirement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight for the rights of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

LETTERS FROM THE PEOPLE.

Botulism.

To the Editor of the Post-Dispatch.
Dr. G. A. Jordan's assertion in his "Weekly Health Talk," which was published in your paper on Feb. 23, that thorough cooking of food articles infected with the bacilli botulinum will remove the danger from botulism is decidedly erroneous. Cooking, no doubt, will kill the bacilli, but it certainly has no effect whatever on the poison which they produce (e. g. ptomaine, muscarin, neurin, methylenanidin, etc.) and which the articles in question contain.

It is also erroneous to suppose, as he does, that food articles contaminated with the bacilli or their poisonous products will always show signs of decomposition, as offensive odor, unnatural color, presence of gas, etc. On the contrary, they very frequently show no signs of decomposition whatsoever, hence the practically unavoidable danger.

As a matter of fact, botulism kills a great number of people every year. In 1879 and 1886 two cities, Chemnitz, Germany, and Middletown, Holland, lost each 250 persons from botulism.

DR. M. LEON.

Labor Militarized.

To the Editor of the Post-Dispatch.
According to your issue of Feb. 27, Russia has begun the militarization of labor. If the Russian Government had adopted this system at the outset they would have been more successful. A labor government cannot be successful unless it is militarized, even then they would have to abolish all useless occupations. The Government that can militarize labor will capture the world trade, if given equal opportunity with other Governments, the military system being the most perfect system of handling men. We may witness the effect of a vast army of workers in Russia competing with the world for commercial supremacy, with a commander over each industry and a commander over each army. A working man instead of a fighting man.

WALTER W. REYNOLDS.

Party Line Troubles.

To the Editor of the Post-Dispatch.
I have a party line with a family of gay girls, who either cannot count or are afflicted with excess of curiosity, as they answer all rings. They start visiting over the telephone early in the morning and keep it up at intervals until the time, often holding the line 25 minutes. When they answer my call before I can pick up the receiver the person calling is told wrong number, necessitating recalling the operator as having given the wrong number, which is unjust to the operator. My call does not justify a single line. Why not consider the convenience of the other subscribers on the line?

"AN ANNOYED SUBSCRIBER."

Business and Teachers' Salaries.

To the Editor of the Post-Dispatch.
I have received a letter from a New York business acquaintance, the following excerpt from which, it seems to me, raises an interesting question as regards teachers' salaries:
"I wonder if St. Louis is having the trouble in maintaining its teaching force that New York has. They are leaving at the rate of 100 a month, mostly the experienced ones, and the new crop is deficient in both quantity and quality. Substitutes are paid \$4 a day, and such ability as they must possess easily gets that as a steady salary in business. You should see the children that present themselves for a wage of \$15 to \$17 a week; almost stupid and devoid of even rudimentary sense in many cases. If the teachers leave the schools it will be only a few years before the business men will have to train their own help, and a little more pay to the teachers now will be cheaper in the long run."

CITIZEN.

Missouri and Kentucky.

To the Editor of the Post-Dispatch.
I see where there is a man down somewhere in Kentucky on some creek who claims to be 135 years old and says it's the healthiest spot in the country. How does he know it's the healthiest? If he had lived right here in Missouri, out in our mountain country by some spring, he might be 175 years old.

They say this man was too old for the draft in our Civil War. He wasn't the only one. I'll bet if someone roes out in old Missouri right now and stirs around in our own healthy Ozarks that he can locate a man that ran away from the draft that George Washington was running.

O. T. D.

Against Daylight Saving.

To the Editor of the Post-Dispatch.
This silly clamoring for daylight saving is utter nonsense. Where, under the sun, does the saving come in? The home-makers know how hard and expensive such saving (?) is. How would these cranks like to be up at 4 or 5 o'clock to get breakfast in place of 6 o'clock. Light has to be used one or two hours when the old time of rising is light enough outside to save our gas bill. We home-makers need consideration as much as automobile owners do. We have to begin to prepare for dinner during the hottest part of the afternoon, and when 6 o'clock dinner is over the sun is still blazing—no shade or cool evening breeze. It is a cruel and unjust thing, and no saving in

M. KATIE JONES.

PUT IT TO THE PRESIDENT.

The increased Democratic vote for the Republican reservations on the peace treaty is a hopeful sign of sanity and independence in Democratic Senators. The vote on the Hitchcock substitute and the original reservation showed conclusively that a substantial majority of the Senate wanted the reservations. Similar votes on other reservations will be conclusive proof that they are the best that can be obtained and represent the will of a large majority of the Senate. We know that the adoption of the reservations will not offend our associates in the peace conference nor destroy the League of Nations. We shall still have the treaty practically intact and a great body of practical provisions in the peace covenant making effectively for justice and peace.

We do not see how in reason and conscience the remaining Democratic Senators who are professedly ardent friends of the treaty can vote with the bitter-enders to reject and kill the treaty on account of these reservations. Their responsibility is to their constituents and the whole people, not to the President. Their duty is to act for the best possible result in the Senate and let the President follow his own conscience and sense of duty in his action with regard to the treaty.

Put the ratified treaty, with the best reservations that can be obtained, up to the President. Let him decide whether, in the light of his duty, the interests of humanity and the cause of civilization, he can afford to pocket and kill it when our associates have indicated a willingness to accept reservations.

Not only will the injecting of the reservation question into the presidential campaign result in deadly delay and confusion, but the treaty should be taken out of the Senate, so that it will no longer obstruct consideration of pressing legislation on other subjects. The Senate's time is being wasted in useless and bitter controversy when all of its time, capacity and energy should be devoted to other legislation.

The Government itself is becoming deadlocked on account of the interminable and venomous discussion of the peace covenant. Let us have peace, with all its fruits.

PICTURE OF OUR 1920 BUREAUCRACY.

Not everyone would agree with Franklin Lane, late Secretary of the Interior, in his estimate of Washington official life. However, after his nearly 20 years of experience in important Federal positions, during seven of which he was a Cabinet officer, it must be admitted that Mr. Lane speaks with an authority denied most observers.

It is, he says in his letter to the President, "rich in brains and in character." It is "honest beyond any commercial standard." It "wishes to do everything that will promote the public good."

Brains, character, honesty, a desire to do its utmost for the nation! What an extraordinary combination! When has Washington officialdom ever received a higher tribute from one more discriminating? How does it happen, then, that the Washington officialdom does not give results more satisfactory? Mr. Lane tells us. To his eulogy of his late associates and fellow workers he appends a large and significant "but."

Officialdom is poorly organized for its task, he adds. The simple virtues of all great business, trust, confidence and enthusiasm, are the ones most lacking under the Government. Everyone seems afraid of everyone else. The self-protective sense is abnormally developed and the creative sense atrophied. An infinitude of details exists and a system of checks and brakes prevents a progress keeping pace with the nation's requirements.

From one standpoint he seems to describe an officialdom onto which new duties and new jurisdictions have been thrust with such frequency that it had found itself confused with the multiplicity of its duties and uncertain as to its powers. How much encouragement does the picture Mr. Lane gives of adequacy and efficiency afford to those whose idea of solving and forever disposing of a problem is to throw it on the shoulders of the Washington bureaucracy?

With all the conditions present for doing a wonderful work in the business of government, with high abilities and rectitude of purpose and impelling ideals, Washington becomes a political caucus, a drawing room, a civil service bureau, all combined.

One of two things must come about: Either the inveterate habit of intrusting new functions to Federal agencies must cease—no signs of its ceasing are now discernible—or Federal officialdom must be revolutionized. The conditions Mr. Lane describes might foreshadow a complete breakdown under circumstances of stress.

He is not without suggestions for improvement. He would broaden parochial views, develop a sense of responsibility, afford more latitude in administrative details. Those are some of the things that may come when the individual citizen develops broader views and greater sense of responsibility. His persistent custom of passing the buck is one of the shortcomings of officialdom.

TROLLEY PASSENGERS.

The United Railways carried 409,010,329 passengers last year, according to the company's annual report. The figure is of especial interest in comparison with that of the Cleveland Street Railway Co., which was 300,000,000, according to Peter Witt, ex-City Street Railroad Commissioner of Cleveland. Mr. Witt was speaking in "round numbers," to be sure, but, even

so, the exact figures, it may be assumed, were close to those given.

We are yet to hear from the census returns. We know, though, that Cleveland is ambitious to capture St. Louis' position. She may do it, by reason of her territorial expansion, annexation and absorption. But with 100,000,000 more trolley passengers a year St. Louis can look upon Cleveland's claims with amused tolerance, regardless of what the census shows.

The trolley is a pretty good barometer of a city's population and activity.

UNION LEADERS' FAIR SPIRIT.

The decision of the representatives of railroad unions to give the railroad law a fair trial and to cooperate with the President in trying to settle wage disputes by arbitration is commendable. It demonstrates an excellent spirit on the part of union leaders.

"We are all good American citizens," one of the union leaders is quoted as saying, "and desire to go along with the President as far as we can." That expresses the best spirit of American citizenship—the spirit which contributes most to the solution of our problems.

The provisions of the law which relate to labor disputes are well worth trying. They create a labor board composed of an equal number of members, representing respectively the employers, the employees and the public, whose duty is to investigate and arbitrate wage disputes.

The selection of the right men for the labor board is of the utmost importance. They should be representative, capable men, who will command confidence because upon their standing and their action in putting the labor provisions into effect will depend the success of the law and the prevention of railroad strikes, which is its purpose.

It is refreshing to have Lieutenant-Colonel Davis, candidate for the Republican senatorial nomination, preaching the sound doctrine of democracy—we mean the principle, not the party—against repressive legislation and violation of the constitutional rights of citizens. These are the big fundamental issues that make for democratic progress.

CAPITAL ON STRIKE.

Capital has gone on strike, according to Frank A. Vanderlip. The reason is high taxes. A dollar can earn as much for its owner now by loafing as it can by working. So the dollar has quit. Jumper and overalls, the insignia of toil, have been discarded. The dollar has donned the creased flannels and blue serge of Palm Beach leisure. That is to say, the dollar, which once delighted to hustle, now dawdles in the ease of tax-exempt bonds.

And why not? The incentive for effort has been destroyed. An investment which yields 14 per cent. Mr. Vanderlip says, actually nets only about 4-1/2 per cent. Therefore people are taking their money out of business, in which there is always some risk, and putting it into risk-proof, tax-exempt Government securities.

It is a bad condition. It is attacking business at its source. Business cannot be born without capital. It cannot grow without capital. It cannot command or attract capital unless it can show results. It cannot show results, or, at least, cannot deliver them, with the Government reaching in and taking the greater part.

There is only one remedy—lower taxes. That is a remedy which everybody in public life approves of, with the solitary exception of Mr. Kitchin. The wisdom of much of our war-revenue legislation is acknowledged by leaders of both parties. The necessity of repealing that legislation and of reducing taxes by spreading the payment of our war bills over a long period is recognized by leaders of both parties, and earnestly urged by our captains of industry and finance. But Congress doesn't do anything. It has no intention of doing anything soon. It is the purpose of the majority party of Congress to mark time until after the presidential election. That is the position taken by Senator Penrose, chairman of the Senate Finance Committee, who speaks by the book.

It is sheer buncombe to talk about relief from living costs under our present taxes. There can be no substantial relief, no restoration of peace conditions, until we get back on a peace-revenue basis. As a matter of fact, the situation is likely to get worse instead of better. If high taxes continue to drive capital into the retirement of tax-free bonds, compel capital to go on strike, as Vanderlip puts it, the outlook is gloomy. For a strike of capital is as disastrous to production as is a strike of labor. And if we can't have production we can't have prosperity, whatever the price.

The paltering of Congress in respect of taxes, and, indeed, as regards the whole scope of reconstruction, raises a serious question. That question is, Has government by party broken down?

A St. Louisian back from Europe says England will never adopt prohibition. But from the experience of the United States, who can say that prohibition will not adopt England?

The first morning under private operation of the railroads all the trains arrived on time. And the request for an increase in freight rates was on time, too.

A MIXED BROOD.

PARADOX.

PRESENT-DAY styles

Have caused much comment. Of course, a mere man's Opinion isn't valued Very highly.

But it seems, verily, That the less a Milady wears, The more in vogue And according to Vanity Fair

She is. Clothes are compounded Of fabric and style— Mostly of style, Because fabric costs so much.

Now If the Costly living Keeps going up, With mixed emotions We anticipate What will be Fashion's ultimate.

CYNICUS.

The president of the Erie thinks we ought to have 2-cent railroad fares again, permitting commodity freight rates to sustain the railroads otherwise. We have a big country, and getting around over it is part of our education. We have not been circulating as we should since passenger fares became so high. The president of the Erie thinks there is probably some feeling upon this score. We know there is. A great many of us are in a way migratory, and we have missed seeing very much through the last few years some parts of the country more or less dear to us. The country is too big for 3-cent fares. They deny to most of us the pleasure and benefit of travel, and nobody much but the Palm Beach set gets around under them. There is, too, as the president of the Erie no doubt has in mind, a popular affection for railroads upon which we travel—a good will which is not the least of the assets of those great properties. It is good to have railroad presidents thinking again. There is a thinking part, and getting them back in it ought to do good.

We are told that the session of the New Jersey Legislature at which 3.5 per cent beer prevailed was the most tense session in 50 years. Little states are disposed to be like most little people. They feel all that the larger states feel, but seem more likely to burst with it for containing it in so much less space. If there is anything in the point raised by New Jersey with respect to concurrent jurisdiction, that ought to be ascertained without making it appear that 3.5 per cent beer would be anything much if we got it. Any of the big states out in this part of the country, we are sure, could vote on that in a quite loose state of mind, nor very much caring how it came out. We are afraid that New Jersey, judging by her agitation at the time the momentous decision had to be made, was thinking less of the principle than of the drink. The most of us who are opposed to prohibition have not yet thought of the drink, but if we did so we could think of 3.5 per cent only pretty much as we think of soda pop—that is, hohumfully. It would not be a strain upon our nerves.

Sir: The scholarly motion picture editor of a St. Louis morning newspaper has made the heart of Robert W. Service to mourn. "Dangerous Dan McGrew" is a Western absurdity, with 4 cast of seven people, with a take-off on RUDYARD KIPLING'S famous poem.

K. T. K.

Railroad men are not saving much about the condition in which they got their property back from the Government, just as the Government had almost nothing to say about the condition in which it got the railroads from their owners.

The Puritans are sick of watchhounds.

Dear Mr. McAdams: It's awful. They've begun sending them to me. The enclosed from the Shreveport (La.) Journal shows what? The New South, perhaps. Yours, REEDY.

GENTLEMAN will share room, private family, and bath, \$5.00 per week. Old phone 3723.

We are grateful to the editor of the Mirror for the suggestion. Mostly we can't make out what people are saying. It probably started in the Senate. Anyway, the celebrated confusion of tongues could not have been anything to the present confusion of meanings, when even Editor Reedy, who ranks with Socrates, Mr. Antwine and our other two-story thinkers, looks at something one of our sign hunters sends him and says "It shows what?" Yet people who read want seem to understand. One can see them in the alley behind any newspaper office when the paper comes out. They scan these things feverishly and then dash off some where, exactly as Mr. Wilson says the league covenant is plain and Mr. Hays says everybody knows what the Republican party stands for. It seems that we understand those in our set. Naturally the man who wants to share his bath with somebody doesn't belong to Editor Reedy's set. Our sign hunter was jesting, and we suspect that was No. 8346775342667800988.

Sir: Please enter this advertisement from the Vandalla (Ill.) Union in the veritability race: See Charles Karts for herb liver and kidney medicine, also plastering and patching work.

You have to have more than one string to your bow in these times. No. 77777777777777777777.

Sir: What about this one?

By the Associated Press. TOLEDO, Ohio, Feb. 13.—Located by a wireless telegraph dispatch from her brother's amateur plant, Cleo Archer, 17 years old, lost for 113 years, has been restored to her mother's home here.

It's all right, we think—not so much news as a parable indicating how long mother will hold out before giving us up.

You may not believe there is a laugh anywhere in the income tax, but this I know, matter just now; but an East St. Louis dealer in sundries saves the situation with this:

Income Tacks Books for Sale Here

Bless his heart.

The Government effort to dissolve the steel trust was unheroic and feeble.

FOR I HAVE YOU.

O, tell me, Adam, child of dust, What you do see in little me, A rib torn out, your plague to be? I love you, Eve, because I must.

But, Adam, I have made you sin, My wiles, my smiles, my form, my all, Caused you from Eden's bliss to fall— With you, Eve, I shall heaven win.

Oh, what, dear Adam, is the spell In my poor being, what the charms You seem to find within my arms? Through you, dear Eve, I conquer hell.

The cause, the secret, who can say. Nor how love works, but this I know, Your smile, because I love you, Turns all my darkness into day.

Oh, darling witch, I never rue That garden old, that age of gold Of which the ancient story told, For I have you—for I have you!

H. M. WILLIAMS.

The MIRROR of PUBLIC OPINION

This column is designed to reproduce without bias the latest comment by the leading publicists, newspapers and periodicals on the questions of the day.

OUR FOREIGN SERVICE.

ARTHUR SWEETSER in World's Work.

W HAN a "foreigner" become a true American by force? Some of the legislation already passed and some of the methods contemplated, save strongly of force. Is that wise? Is it practical? Is it American? We who are Americans by our free choice (pardon the boast) deplore sincerely the faults of our compatriots, and are most anxious to see them remedied; we are heartily in favor of any practical movement on the part of American-born citizens to help these people to become true Americans, in the full meaning of the word; but we say that you will never succeed by using the same methods as drove many of them to seek the shelter of free American institutions. Do not transplant Prussia or Hungary to the shores of liberal America. Prussian and Magyar methods have proved to be a failure; the Irish nation is a fairly lively corpse, in spite of the fact that the prohibited Celtic language is almost reckoned among the dead languages. Remember this: a parrot does not become a man by learning to say, "Polly wants a cracker" or to swear like a sailor. Do not confuse the means with the end; a man can commit treason in English as readily as in Hottentot.

"AMERICANIZING" BY FORCE.

JOHN KULAMER in Atlantic Monthly. CAN a "foreigner" become a true American by force? Some of the methods contemplated, save strongly of force. Is that wise? Is it practical? Is it American? We who are Americans by our free choice (pardon the boast) deplore sincerely the faults of our compatriots, and are most anxious to see them remedied; we are heartily in favor of any practical movement on the part of American-born citizens to help these people to become true Americans, in the full meaning of the word; but we say that you will never succeed by using the same methods as drove many of them to seek the shelter of free American institutions. Do not transplant Prussia or Hungary to the shores of liberal America. Prussian and Magyar methods have proved to be a failure; the Irish nation is a fairly lively corpse, in spite of the fact that the prohibited Celtic language is almost reckoned among the dead languages. Remember this: a parrot does not become a man by learning to say, "Polly wants a cracker" or to swear like a sailor. Do not confuse the means with the end; a man can commit treason in English as readily as in Hottentot.

CONDITIONS OF THE RAILROADS.

From the Manufacturers' Record. THE railroads were in bad enough shape before the Government took them over. They are in infinitely worse shape now as compared with the volume of freight and passenger travel, and with the very broadest development work that can possibly be done it will be years before the railroads can catch up with this drastic situation. No one knows when the goods which he buys today will be delivered, whether next month or the following month or the month thereafter. No man can do business with any intelligent foresight as to the time of securing delivery. The conditions of the roads is not to be wondered at when Mr. Hines, head of the Railroad Administration, reports that during last year only 340,000 tons of rails were contracted for, or less than 10 per cent of the annual needs prior to the Government control, and that only 15,000 cars were received, which were not enough to even meet the depreciation on existing rolling stock. The number of locomotives was less than one-quarter of what the railroads themselves have sometimes ordered in the past.

SPORTING CALLS OUT SMART ATTIRE

her Costumes for the Outdoor Feminine Show Decorative and Modish Style—Sweaters of All Textures and Variety of Forms Resume Sway.

By LOUISE M. KELLARS.

SPORTS apparel may be divided into two groups; the smart, manish, practical sort for the woman who seriously goes in for outdoor activities and the soft, prettily-dressed effects for the amateur or for the girl who never will wear more than a superficial interest in the robust athletics of the summer season, and can afford to keep her air of delicate femininity for sporting.

After many years of education on the part of tailors and specialists in dressmaking the American woman has been encouraged to study her particular needs and to clothe them accordingly. She has been shown how ridiculous it is to dress as if a tea function when on her way to the tennis courts, or to wear maitre d' when going to the golf course. So it has become the fashion to adopt the quiet, unostentatious and cheviots of our transatlantic cousins, plain to a point of severity, but smart to a degree not service obtainable. They are English in heritage and tradition, like the other sort may be styled combination of French and American ideas, femininely inconsistent in the occasion of their wear, but exhibiting a rather delightful note of color and frivolity to the sports girl.

The Norfolk jacket has been the sensation for the coats of shooting, hiking costumes and separates, being to complement the skirt of a sturdy fabric and color. The fabric must be rather loosely woven in texture, although practically impervious to weather vagaries. The tan and gray are immensely popular, a newly insistent note on a tan jacket has a decidedly tawney cast, as to a reddish tinge. A bit of a sensation to the approaching season is found in barpiads of tweeds, brown or dull gray grounds, crossed and creased with life, tan or gray lines.

The skirts vary hardly at all from the models of last season. They are narratively wide, as they should be for their sports destinies. For most part they have pockets, there are models supplied with yellow yokes to which are attached draw belts of the fabric. Certain models are cut knee length, flared down the front and worn over matching knickerbockers or converted into a hybrid trouser-skirt for mountain climbing, riding and the like.

Campers Needs Knicker Suit. The knicker suit is a new return to appeal to the sports enthusiast. It has many uses, for while designed for winter activities it will be retained in the spring summer outfit for camping in Adirondacks or the Canadian woods and kindred uses. There are models to complete the trousers and the ensemble a suit effect. Such models are semi-fitted and reach half way between the knee and the hip, may elect to wear a scarf, or a wool or angora in one color, the latter repeated, perhaps in the soft hat. To be up to the minute in sports accessories the knicker suit sponsored by Rodier of New York may take the place of the more traditional woollen affair or one of the same source, made of printed jersey. To be really consistent, however, the woollen adjunct is in the best taste.

There is greater license accorded riding habit, both as to cut and color, than ever before. A sharper distinction is made between the winter and the spring styles, so that the winter habit has the opportunity of being more of the other with the same sense of dress restraint. The winter riding habit is a thing to be worn from a winter tulle into the spring. An excellent idea of a riding habit is found in a model with "safety first" skirt of black and white checked English cloth and a coat of black melton cloth, the full hip laid in flat pleats, front fastened with two buttons, reverses rather long and narrow, a self-cut finishing the sleeves. The type of model is dubbed a "riding habit," and as correct as the riding habit with the characteristic of the whole crowned with a low-top derby.

Of course, there is the habit with padded coat indispensable to the middle rider. It is to be had in the Oxford, cover and later on in the when it will be worn with the tricolor of the sailor. Many women will have none other than a riding habit, while there are those who prefer a dusty green or (for the summer) a tawny brown, suitable to show dust and stain in relation to cross-country runs.

The true sport coat is known by its simplicity, meaning a faultless cut, excellent materials. Camel's cloth is natural and dyed colors, fashionable, frequently boasting a strikingly except in so far as the collar, reverses and cuffs may be added. Many of the smartest of the unlined except for a skeleton of satin. The seams are cut with great nicety and are beautiful enough to be exposed to public criticism, when carried over the arm of fortunate owner.

Camel's hair there are admirably plaided, coats, reminding of the horse blankets of a past era. These coats are supplied with numerous pockets, whose chief use is decorative, since no proper respect for the sports coat would ever laden the coat with field glasses, riding tennis balls or what not, degrading its temptations to the contrary.

Of Rose Color, to Show the Gladness of the Out-Door Life, Is a Silk Sports Suit (Right) With Revers, Cuffs and Great Pockets of Cloudy White Angora.

Smart Simplicity Characterizes a Top Coat, Seen at the Left, of Worumbo Camel's Hair in Natural Color, Completed by a Sailor Hat of Navy Georgette Banded With Patent Leather.

Belts are as popular as ever, although they have no bulk of fabric to keep in place about the waist; they serve to break the length of the garment in a modish way.

Cape Hangs Low in Back. The cape coat has made its return with very little difficulty, enveloped by the tartan colorings and without any fuss or feathers in the way of superfluous garniture. The cape is graduated from waist depth in front to several inches below the point in the back. And there are

lines and variously done in embroidery or simply trimmed with collar cuffs and bands of white cloth, soft kid or angora in contrasting colors. The third piece—the jacket—takes on sweeter lines, although it has more dignity than the regulation sweater; or it may be a circular cape swinging freely from the shoulders and collared in angora or satin. The French woman is very partial to the cape, wearing it on much the same occasion that the American woman does the sweater.

BURGESS BEDTIME STORIES

By THORNTON W. BURGESS.

Blackie the Crow Makes Fun of Reddy Fox

When you see a crow about
Then for mischief pray reach out.

BLACKIE, the crow, is an early riser. He needs to be in winter, for at best the days are short, and there is none too much time to get enough to eat. You see, in winter food is scarce, and often Blackie has to fly far to get enough to keep him reasonably comfortable.

On this particular morning Blackie was awake as soon as he was light enough to see. He shook himself,

smoothed out his feathers and then left the big, thick hemlock tree in which he had spent the night. He flew straight toward the Green Meadows. He was on his way to the Big Tree for he hoped to find a dead fish or some other food on the edge of the water. There is not much that the sharp eyes of Blackie Crow misses. As he passed over the old bramble-tangle on the edge of the Green Forest he saw two little brown forms squatting side by side together. "As I live," muttered Blackie, "there is Peter Rabbit and Mrs. Peter. How ever in the world did Peter induce Mrs. Peter to come over here?" He was tempted to peep and ask them, but thought better of it and held his tongue.

Straight over the snow-covered Green Meadows he flew past the dear Old Briar-patch. He didn't intend to stop there, but when those sharp eyes of his saw a spot of red half hidden under the bushes on the edge of the Old Briar-patch he changed his mind. He circled and alighted in the top of a little tree and his sharp eyes twinkled and snapped as he looked down. There lay Reddy Fox, and Blackie's wits are so sharp that he knew instantly why Reddy was there. He knew that Reddy had found out that Peter was

By Mrs. Elizabeth Kent.

WASHING CLOTHES—WHY?

WE WASH clothes, of course, because they get soiled, but perhaps we do not always appreciate that the chief source of the dirt is our own bodies. Our clothing covers a living organism which is constantly changing in order to keep itself in good condition.

The care of any organic body differs from that of a machine, because its life processes include, be-

sides repair, the elimination of waste. This waste is poisonous to the body and must be eliminated; the organs which are used to remove waste and keep the living body pure are the lungs, the kidneys, the bowels and the skin.

In connection with clothing we are concerned chiefly with the exertions through the skin. When we are told by those who have made a study of the subject that as much waste is thrown off in one day through the skin as through the kidneys, we get some idea of the value we must attach to the subject of clean clothing, especially of clean underwear.

When an undergarment has been worn a few days, the change to a clean dry one causes a noticeable increase in warmth and comfort. This is because clothing in a very short time absorbs considerable waste and moisture from the skin, which clog the pores. This goes on constantly. Clothing so clogged with waste prevents the body surface from breathing. For the same reason bed clothing that does not change regularly. That clothing or bedding is not stained or discolored is not proof that it is clean. If it has been in contact with a living body it is soiled.

that Blackie the Crow had discovered him. And this day he wonders why Peter did not come home as usual at sun-up that morning, and how it happened that little Mrs. Peter was over in the old bramble-tangle on the edge of the Green Forest instead of at home in the dear Old Briar-patch.

Talks on Health and Beauty

By Pauline Furlong.

Keeping Young.

SO many letters reach me from distressed readers about the many dread signs of old age appearing, I have been prompted to write a small article about this important subject, with a few practical suggestions.

To begin with, health is the all-important factor in keeping young and looking young, and the second consideration is strict attention to proper methods of living, hygiene and careful grooming. No woman can appear youthful who is careless in her personal appearance and sluggish in her daily habits.

Baths and outdoor recreation, as well as some physical exercises for all the muscles of the body, which must necessarily be performed in the privacy of the home, are absolutely essential factors in keeping the muscles of the body supple and elastic and in adding the eliminative organs to throw from the body the accumulation of waste matter which the system discards. Proper carriage and erect posture, which holds the shoulders back, the abdomen in and the head and chin tilted well up, are also important points in making the body appear youthful and full of vigor.

The cultivation of a cheerful and happy spirit which helps to dispel the "down-in-the-mouth" expression which so many women possess around 40 years of age, also aids materially in arresting the dread signs of old age.

Middle-aged women should be careful and, if possible, never allow themselves to get really tired, and must also see to it that the hair is always carefully arranged, in soft even, shining coils and held in place by invisible pins or a fine hair net, otherwise every tell-tale mark of age which they possess will be exaggerated.

Rest and daily massage treatments, light and firm, are as essential as exercise, if not more so, especially in middle life and later, and the practice of the easier and less strenuous physical movements is recommended for women around 40 years of age.

A formula for a nourishing skin food, to be applied before retiring is given below and may be safely used by those whose skin appears dry and scaly. Melt one-half ounce each of spermaceti and white wax over lukewarm water. Then add one ounce each of lanolin and coconut oil. When these are blended and melted add two ounces of skin cream or dry milk. Whip this mixture with a wooden or ivory spoon, after removing from the heat, until it is nearly solid. Then slowly add, while whipping furiously, one drop of tincture of benzoin, to preserve and enrich the mixture. Place in covered jars and keep in moderately cool place.

TIMELY SUGGESTIONS

CHEESECLOTH makes pretty and inexpensive curtains. Choose a good quality and finish the edges with ball fringe—or turn a hem over on the right side and mark it with a narrow braid, white or colored, stitched neatly in place.

When you remove the waste from your carpet-sweeper carefully remove the lint from the revolving brush. Then, with a wooden cloth dipped in kerosene, rub the bristles thoroughly. The oil prevents the rising or dust when the carpet is swept and brightens its colors.

Mineral wool makes the quickest possible scouring for the vegetable knife, by the way.

If there are mixing bowls that didn't get washed while the meal was preparing try scraping off the doughy mixture that clings to them with half a used soap or dry and visiting card. The cardboard hugs close to the glaze, making a clean scrape.

A palatable way to serve cold boiled potatoes is to put them through a sieve, season sweet almond butter and salt, form into cones and brown in the oven.

Philadelphia has more than 2500 women candy workers.

Why Be Fat? The answer of most fat people is that constant dieting is hard, continual exercise is tiresome, exhaustive—then, too, it might be harmful to force the weight down. That was the old-fashioned idea. Today in Marmola Prescription Tablets all these difficulties are removed. These tablets are a little tablet after each meal and at bedtime causes fat to vanish. This modern medicine is absolutely harmless, entails no dieting and is the added advantage of Marmola Prescription Tablets is sold by druggists.

If, preferably, one can be obtained by mail, write to Marmola Prescription Tablets, 100 West 4th St., New York, N. Y. Do not send money for being sent. Send a check for \$1.00 and you will receive three or four tablets free of any obligation for any other medicine.

that Blackie the Crow had discovered him. And this day he wonders why Peter did not come home as usual at sun-up that morning, and how it happened that little Mrs. Peter was over in the old bramble-tangle on the edge of the Green Forest instead of at home in the dear Old Briar-patch.

The Runaway Prince Who Loved and Married "Zizi"

THIS is the third installment of the absorbing story of Crown Prince Carol of Rumania and "Zizi," the beautiful girl whom he preferred to a daughter of the Czar of Russia. The facts are fully, intimately set forth in the narrative, which is by the devoted friend of Carol who arranged the details of the elopement from Jassy and accompanied the lovers on their flight to Odessa, where he brought about their marriage in the face of many and extraordinary difficulties.

The constancy of Carol and "Zizi" under the most painful circumstances and through months of separation has brought about an almost unprecedented situation which even threatens the downfall of the Rumanian dynasty.

(Continuing the narrative of Henri Serdici, who in chapter 3 described the Prince's first proposal of an elopement, the objections of Mlle. Lambrino and the stratagem planned.)

CHAPTER IV (Continued).

AND then I promised to return next day to Jassy and make all ready for our departure, also to inform Mlle. Jeanne that the Prince would come Tuesday night ostensibly to call on Mme. Lambrino, and he hoped to find her full of courage.

So we separated and the Prince vanished into the night. I need not describe in detail my conversation with Mlle. Jeanne. I gave her the Prince's message and we had a long discussion. One cannot blame a young woman for hesitating to embark on a voyage so hazardous. I, myself, had my doubts, I will admit.

In the end, however, she made up her mind—all in a flash, it seemed to go. What finally convinced her I think, was the fact that she was to pass as a friend of my future wife and the fact that in six days, or at the most 10, her mother and brother would learn of her safety.

So all was seemingly well under way. And now came a sudden check—the first of many.

Tuesday arrived; the day before our departure. With it arrived a message from the Prince. His majesty, the King, had determined to go to Targu-Neamtz on Friday of that week to decorate certain officers and soldiers of the Prince's regiment. Carol, of course, must be present. He informed us of this and at the same time fixed the departure for Sunday morning, saying he would be with us in Jassy Saturday evening.

The delay was terrible for all of us. I cannot picture the agonies of the Prince and of Mlle. Lambrino, but for myself I can say the dragging days of that week were each like a nightmare. I confess my confidence was growing weaker as the event approached, and I yearned to confide in someone. By Saturday I was going about in an almost hypnotic state. It happened that just then I met a young diplomat of an allied nation whom I had known for a number of years.

I bared the whole matter to him, after exacting his solemn oath never to reveal it, and I begged his advice as to the political and moral effect of the Prince's dual project. "It may be as beneficial as you hope," said he after long thought, "yet there is great risk. It might be better for all of you to abandon the plan."

He went on to say that in his opinion Prince Carol's best policy would be to remain in Rumania and conduct a lively propaganda among the officers of the army. Thus, he would be able to disappear at a moment's notice, and I yearned to confide in someone. By Saturday I was going about in an almost hypnotic state. limbs disposed the best way possible on the pile of luggage, and ruefully regarded this impediment, which was about as follows:

For the Prince—one military trunk, regulation size; one large parcel pipe tobacco; one packet of books, one long civilian coat.

For Mlle. Jeanne—one trunk, one basket containing food and numerous small packages whose usefulness was not then apparent, but developed later.

For myself—one traveling bag and a small toilet case.

On top of this heap of luggage I sat, reviewing our calculations intended to reduce it, and thinking of the perspiration I should shed in transporting it all through the possibly repulsive of the Soviet. And besides, how maintain, in the face of strangers we might meet on the road, that this was merely an early morning pleasure drive?

But there were other troubles that made the worry of the baggage seem trivial.

We came soon to a dilapidated bridge, which caused us to make a detour, then crossed another bridge and entered the village of Ungheni. But to leave it was another thing. In fact, at this point our journey in the automobile came to an end. The road was utterly impracticable. The chauffeur and I got out and pushed from behind, while the Prince labored at the wheel. It was no use. The car made more retrogression than headway. We then engaged two peasants to harness horses to the car—they were stupid peasants, and probably never will know at what an event they assisted—thus contriving to advance a few hundred meters more. Then we gave up that method.

As General of the expedition I decided there was nothing to be done but to return to the village, lunch there and then try our luck with the railroad, which I knew from the map ran not far away.

So I returned alone, as scout, found a place where there was a room, quite clean—too clean, in fact, since it almost entirely lacked furniture—and having found it, guided Prince Carol and Zizi thither, and had the luggage brought. I sent a messenger to find two trucks, one for ourselves and another for the confounded baggage.

Meanwhile Prince Carol summoned the chauffeur, handed him 500 francs and said:

"You will join us in eight days in Ackermann. Meanwhile look for tires; we shall need them eventually. During the eight days you will live on the 500 francs."

And he added, with a sternness not to be mistaken:

"You would not mention to a soul that you left here, nor that you are waiting for me; nor will you tell any one you have been with me."

The poor chauffeur, much mystified, no doubt, but too well trained to suggest a question, left us. What became of him afterward I do not know.

Well, we had our picnic meal, as gay as larks, there in the little room, and presently the trucks arrived. We installed ourselves as comfortably as possible, and took up our interrupted journey. We passed through two miserable villages and an hour later reached Pariltz, where there was a railroad station, and where at 11 that night would stop the train that would take us to Bender, on the Rumanian-Ukrainian frontier.

About 500 meters from the village I descended and went ahead to examine it for "suspicious characters." Finding nothing alarming I returned and gave the signal that the road was clear. The "royal equipages" entered the village and after a brief search we found an inn where an ancient Jew offered us a room, fairly large, and which we ordered, sweet and dusted. It was well situated, this inn, being very near the railroad station, and in it we passed a pleasant afternoon and evening, while the Prince and Mlle. Lambrino rested and read and I smoked.

MORE TRUTH THAN POETRY

By James J. Montague.

WHO'S AFRAID OF BURGLARS?

"Killing a burglar is not as dangerous or difficult as it sounds. They are nearly always undernourished, victims of drugs, alcohol or both, with badly shaped heads. Such men are not courageous and would not be dangerous in any fair fight."—Arthur Brisbane.

Behold the burglar, pale and frail,
A jaded, broken, brainless creature,
The years that he has spent in jail
Writ large on every furtive feature.
His horribly misshapen head
Denotes his intellect is zero,
But he can shoot you just as dead
As can a fear-defying hero.

The dope has sapped his intellect
(Admitting that he ever had one),
He has no conscience; we suspect
His soul must be a base and bad one,
But if he pressed his gun on us
Against our heart, or even liver,
Without unnecessary fuss,
We think we'd speedily deliver.

He always has been fond of booze;
And look at how the stuff has served him!
Attacks of alcoholic blues
Have chilled his courage and unnerved him.
A futile creature at his worst,
We ought to pity, not abhor him,
But if we chanced to see him first
We would not be a target for him.
His dope, his booze, his life in jail,
His lack of culture have been his bane,
But if we saw him we should quail,
And so, we'll bet, would Mr. Brisbane.

STOLEN PROPERTY.

Very often the receiver of a bankrupt public service corporation has to violate the law against running a "peace."

No Encouragement.

"I hope there's no harm in asking who the stunning visitor was?" "None whatever," replied Mr. Biddison. "I only wish I knew myself."

All Settled.

Father: You won't marry Henri because he has red hair. You don't want M. Dupont because he has gray hair. I've no patience with you—Daughter: Oh, papa! Father: So now I have found a husband for you who has no hair at all!—Ruy Blas (Paris).

LOUDER.

When Mr. Hoover told Europe to go to work, apparently Europe didn't hear him.

(Copyright, 1929.)

True Affection.

"He seems very fond of his wife." "Very. Doesn't even find fault with the way she's bringing up the children."—Detroit Free Press.

Great Scheme.

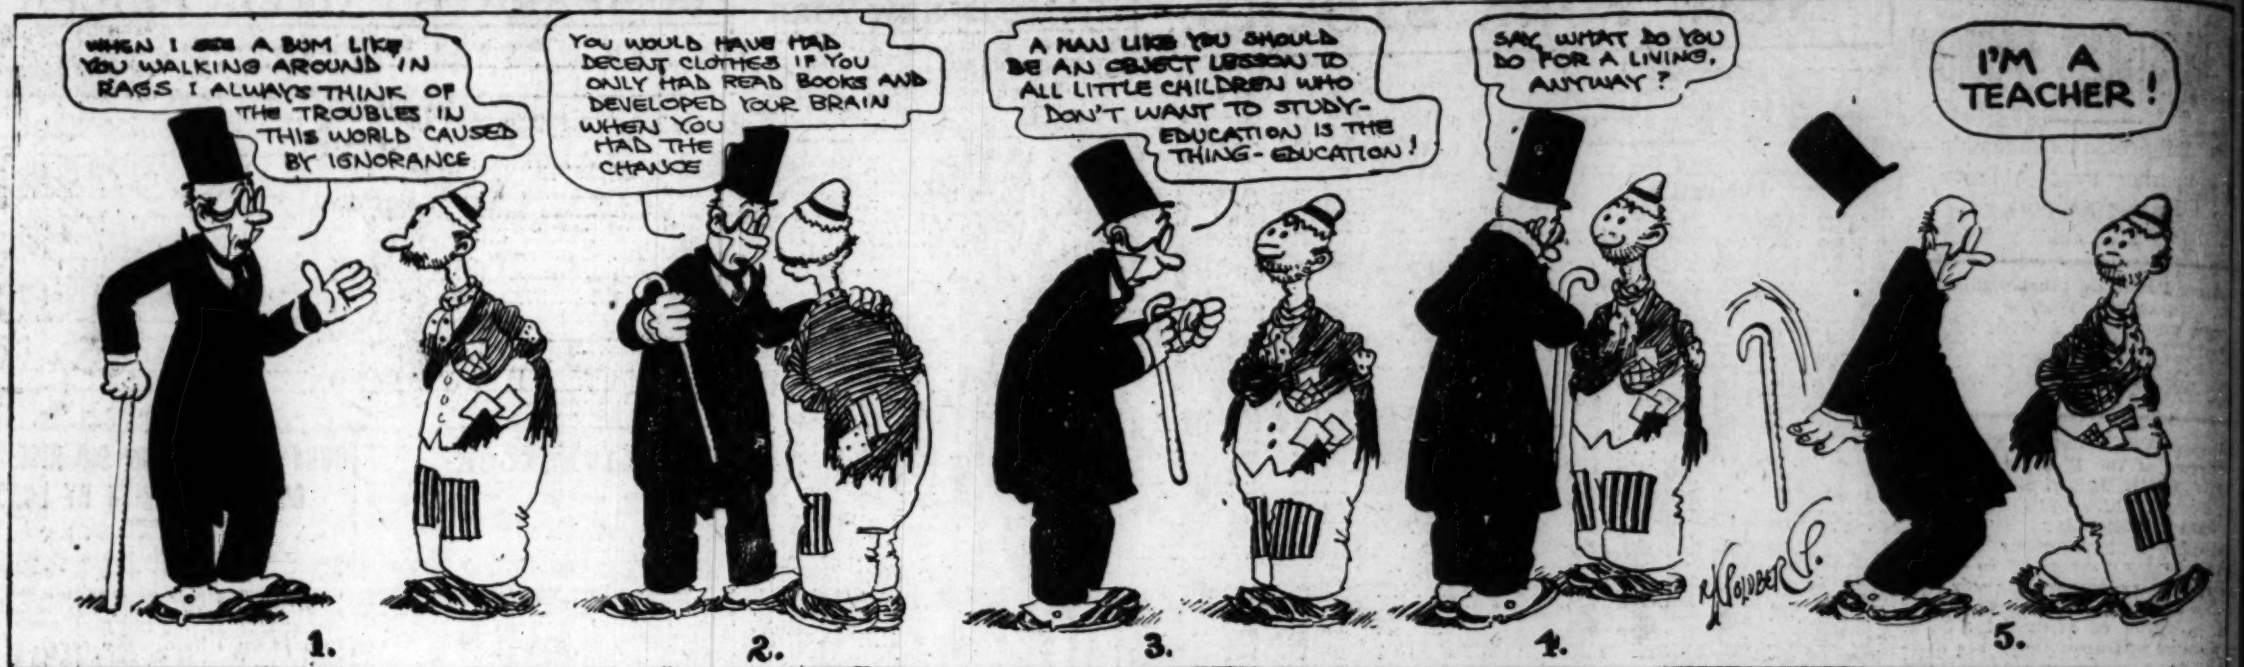

"Why is your window filled with misspelt and ungrammatical signs?" asked the Inquisitive Man who had gone in the store.

"I am a yep and come in to short change me," replied the storekeeper. "I have more trade than I can attend to."—Cincinnati Enquirer.

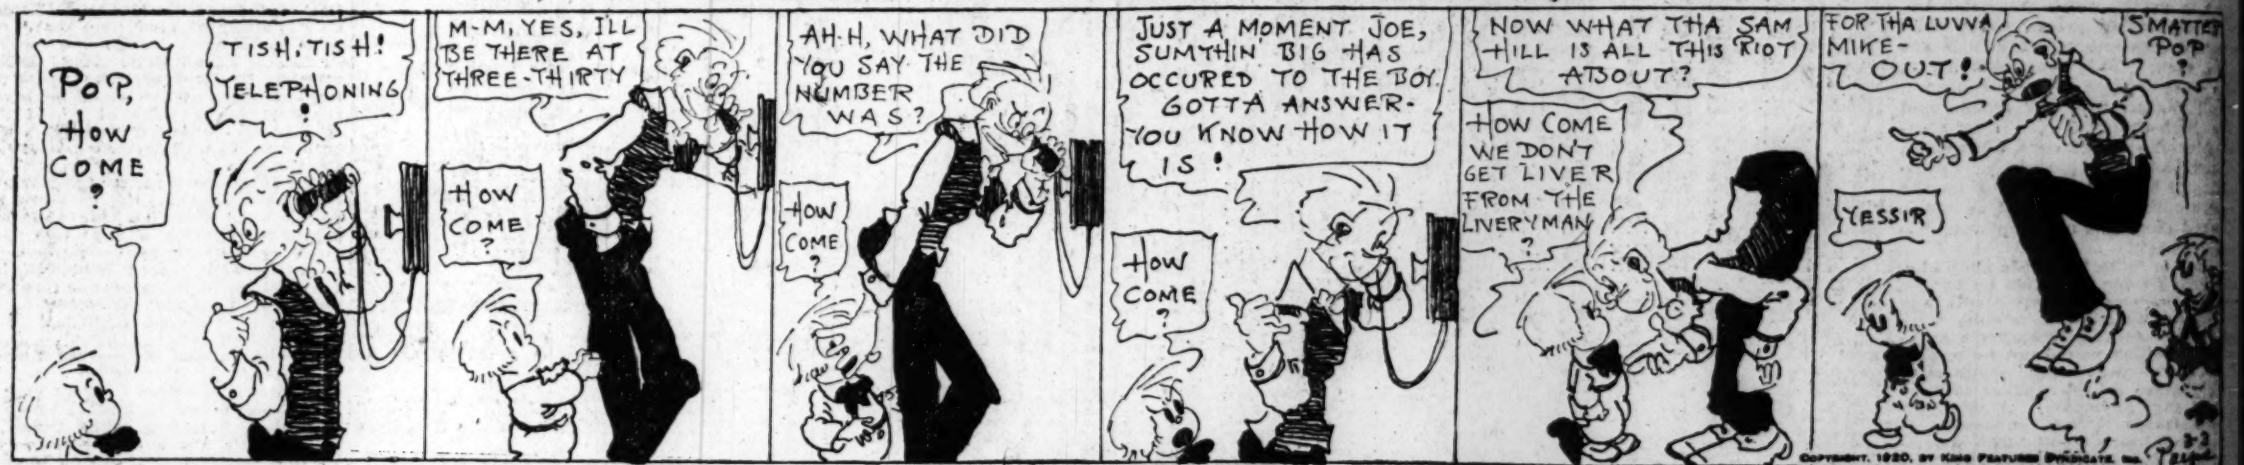

A Martyr.

Wife: Do you expect to get to heaven by hanging on to my skirts? Hub: No; but I might by showing St. Peter the bills for them.—Boston Transcript.
